

FORM CRS- A SUMMARY OF YOUR ADVISORY RELATIONSHIP WITH TRILOGY CAPITAL, INC.

ITEM 1 – INTRODUCTION

Trilogy Capital, Inc is registered with the Securities and Exchange Commission (SEC) as an investment advisor. Trilogy Capital markets advisory services under the name of Trilogy Financial, an affiliated but separate legal entity. Brokerage and investment advisory services and fees differ, and it is essential for you to understand these differences. Free and simple tools are available to research firms and our financial professionals at Investor.gov/CRS, which also provides educational materials about broker-dealers, investment advisors, and investing.

ITEM 2 – RELATIONSHIPS AND SERVICES**WHAT INVESTMENT SERVICES AND ADVICE CAN YOU PROVIDE ME?**

Our Firm offers investment advisory services to retail investors on a discretionary basis. Our Firm monitors your investment advisory accounts, and specific investments within your accounts, on an ongoing basis to align with your investment goals. This service is included as part of the Firm's standard advisory services. In a discretionary account, you have granted written investment authority to your Financial Professional to execute purchase and sell orders in your advisory accounts without consulting with you first. You may limit our discretion, such as by imposing reasonable restrictions on investing in certain securities or groups of securities. Our Firm requires a minimum account value of \$5,500 in order to provide advisory services to you. This minimum account value requirement is negotiable. If deemed appropriate, your Financial Professional may retain an independent money manager to act as a sub-advisor to your account. In addition, our Firm offers financial planning and consulting services for our clients. These services can be provided on a stand-alone basis or in conjunction with our investment management services. In a consulting engagement, you will be required to select your own investment managers, custodian, and/or insurance companies for the implementation of consulting recommendations.

QUESTIONS TO ASK YOUR FINANCIAL PROFESSIONAL:

- Given my financial situation, should I choose an investment advisory service? Why or why not?
- How will you choose investments to recommend to me?
- What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications mean?

FOR MORE INFORMATION REFER TO OUR FIRM'S ADV PART 2A BROCHURE - ITEM 4, 7, 8, 13 & 16

ITEM 3 – FEES, COSTS, CONFLICTS, AND STANDARD OF CONDUCT**WHAT FEES WILL I PAY?**

Our Firm receives a fee as compensation for providing investment advisory services on your account. The investment management fee includes investment management supervision, trade entry, and other account maintenance and/or service activities. Our investment management fees are based on a percentage of the total account value. Our maximum annual investment advisory fee is 2.00%, billed in arrears on a monthly basis. You pay this fee even if you don't buy or sell investments. The more assets in your advisory account, the more you will pay in fees, and therefore, the Firm has an incentive to increase the asset value in your account. The custodian will charge transaction costs, custodial fees, redemption fees, retirement plan and administrative fees, or commissions. Our Firm may engage the services of unaffiliated and independent registered investment advisor(s) ("Signal Providers" or "Sub-Advisors") to receive trading signals, research, or other information that the Firm uses to manage a particular strategy/portfolio. All fees to various Signal Providers or Sub-Advisors are paid by Trilogy (as a percentage of the fees generated within a particular strategy). Thus, a portion of the advisory fee paid by a client to Trilogy may be used to compensate such third-party providers or consultants. For our Wrap Fee Program accounts, you will pay us a single asset-based fee for advisory services, transaction costs and certain administrative and custodial costs associated with your investments. If you expect to trade infrequently or to pursue a "buy and hold" strategy, a wrap fee program may cost you more than paying for the program's services separately. You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. Fees for financial planning and consulting services are negotiated on an hourly or fixed dollar amount. You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

QUESTIONS TO ASK YOUR FINANCIAL PROFESSIONAL:

- Help me understand how these fees and costs might affect my investments.
- If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

FOR MORE INFORMATION REFER TO OUR FIRM'S ADV PART 2A BROCHURE – ITEM 5

**WHAT ARE YOUR LEGAL OBLIGATIONS TO ME WHEN ACTING AS MY INVESTMENT ADVISOR?
HOW ELSE DOES YOUR FIRM MAKE MONEY AND WHAT CONFLICTS OF INTEREST DO YOU HAVE?**

When we act as your investment advisor, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means. Asset-based fees present a conflict because our Firm is incentivized by encouraging you to invest additional funds in your advisory accounts. Asset-based fee compensation also poses a conflict when: a) Advising you to rollover a 401(k) balance, when equivalent and less costly options are available if funds are left with the employer's fund manager. Some of our firm's financial professionals are RRs of an unaffiliated broker-dealer, LPL, and they may offer you brokerage services through the unaffiliated broker-dealer or advisory services through our firm. Brokerage and advisory services and fees are different. RRs charge a transaction-based commission each time they buy or sell a security in a brokerage account. As a result, they have an incentive to trade as much as possible in order to increase their compensation. Our Firm does receive promoter compensation from independent registered investment advisors for the referral of clients to the independent firms. Alternatively, our firm does pay promoter compensation to independent registered investment advisors for the referral of clients to our Firm. Our Firm is required to disclose commonly owned entities that would provide different services to you and generate additional compensation to our Firm. Certain RRs of LPL received transition assistance from LPL in the form of a loan if our Firm meets certain conditions in terms of maintaining a relationship with LPL. Please note that you always have a right to choose services and products from our affiliated entities or any other firm that provides similar services and products. Lastly, some of the products, services and other benefits provided by your custodians are used in servicing all of our Firm's advisory accounts and therefore may not directly benefit your advisory account. If you have questions about whether any of these situations could apply to your investments, ask your Financial Professional.

FOR MORE INFORMATION REFER TO OUR FIRM'S ADV PART 2A BROCHURE - ITEM 10, 11, 12, & 14

QUESTIONS TO ASK YOUR FINANCIAL PROFESSIONAL:

- How might your conflicts of interest affect me, and how will you address them?

HOW DO YOUR FINANCIAL PROFESSIONALS MAKE MONEY?

Our Firm's Financial Professionals are compensated based on the revenue our firm earns from our investment advisory fees. This compensation is based on the amount of assets they service, experience and expertise of the Financial Professional, and/or the revenue based on the recommendations provided by our Financial Professionals. Some of our Financial Professionals are insurance licensed and receive commissions, trails, or other compensation from the respective insurance companies as a result of effecting insurance transactions. However, you have the right to decide whether to act on any of the insurance recommendation. We recognize our duty to place your interests first and have established policies in this regard to avoid any conflicts of interest. As described above, when our Financial Professionals act as a Registered Representative ("RR") of LPL Financial ("LPL"), our Financial Professionals receive commissions in connection with the transactions made in your account. While some of our Firm's Financial Professionals are engaged in outside business activities, we are required to disclose material outside business activities and any conflict it may pose to you. Our Firm supervises the business activities of our Financial Professionals through our compliance program. All Financial Professionals are required to follow a Code of Conduct to mitigate any conflicts to you.

FOR MORE INFORMATION REFER TO OUR FIRM'S ADV PART 2A BROCHURE - ITEM 5, 10, 11, 12 & 14

ITEM 4 – LEGAL OR DISCIPLINARY HISTORY

DOES THE FIRM OR YOUR FINANCIAL PROFESSIONALS HAVE LEGAL OR DISCIPLINARY HISTORY?

No for our firm. Yes for our financial professionals. Visit Investor.gov/CRS for a free and simple search tool to research us and our financial professionals.

QUESTIONS TO ASK YOUR FINANCIAL PROFESSIONAL:

- As a Financial Professional, do you have any disciplinary history? For what type of conduct?

FOR MORE INFORMATION REFER TO OUR FIRM'S ADV PART 2A BROCHURE - ITEM 9

FOR ADDITIONAL INFORMATION ABOUT OUR SERVICES OR A COPY OF FORM CRS

For additional information about our investment advisory services visit the SEC's website at www.adviserinfo.sec.gov. Our firm's IARD number is: 281597 You may also contact us directly for up-to-date information and to request a copy of the relationship summary at: 714-843-9977 EXT. 1130.

QUESTIONS TO ASK YOUR FINANCIAL PROFESSIONAL:

- Who is my primary contact person? Is he or she an investment advisor or representative of a broker-dealer? Who can I talk to if I have concerns about how this person is treating me?

MATERIAL CHANGES SINCE LAST FILING

March 4, 2026, the Firm updated the fee section to reflect the maximum annual investment advisory fee is 2.00%.

Trilogy Capital, Inc.

Part 2A Brochure

March 4, 2026

This brochure provides information about the qualifications and business practices of Trilogy Capital, Inc. If you have any questions about the contents of this brochure, please contact us at (714) 843-9977. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority. Trilogy Capital is a Registered Investment Advisor. Registration with the United States Securities and Exchange Commission or any state securities authority does not imply a certain level of skill or training.

Additional information about Trilogy Capital, Inc. is available on the SEC's website at www.adviserinfo.sec.gov. You can search this site by a unique identifying number, known as a CRD number. The CRD number for Trilogy Capital, Inc. is 281597.

ITEM 2 – MATERIAL CHANGES

Summary of Material Changes

This section of the Brochure will address only those “material changes” that have been incorporated since our last delivery or posting of this document on the SEC’s public disclosure website (IAPD) www.adviserinfo.sec.gov.

Since the last annual update to the Form ADV Part 2A dated March 24, 2025, Trilogy has made the following material updates to its Firm Disclosure Brochure:

- **Item 5 was amended to reflect** - Our maximum investment advisory fee is 2.00%.

If you would like another copy of this Brochure, please download it from the SEC Website as indicated above or you may contact our Chief Compliance Officer June Adams at (714) 843-9977 x1191 or june.adams@trilogyfs.com. We encourage you to read this document in its entirety.

ITEM 4 – ADVISORY BUSINESS

This disclosure document is being offered to you by Trilogy Capital, Inc. (“Trilogy”) in connection with the investment advisory services we provide. It discloses information about the services that we provide and the manner in which those services are made available to you, the client.

We are an investment management firm with locations in Arizona, California, Colorado, and Massachusetts. Our main headquarters is in Irvine, CA. We specialize in investment advisory services for high-net-worth individuals, families, trusts, estates, and profit-sharing plans. The firm was established by Jeff Motske in 2015. As of March 4, 2024, the Firm is owned directly by Trilogy Capital Holdings, Inc. More detail on the Firm’s breakdown of ownership is listed on Schedule A/B of the Firm’s Part 1 ADV.

Our firm offers its services under the business name of Trilogy Financial. Our IARs will use this name and logo for marketing purposes and Trilogy Financial may appear on marketing materials or client statements. The Client should understand that Trilogy Financial is an affiliated entity of Trilogy Capital. The Investment Advisor Representatives (“IARs”) are under the supervision of Trilogy Capital and the advisory services of the IARs are provided through Trilogy Capital.

We are committed to helping clients build, manage, and preserve their wealth, and to providing assistance that helps clients to achieve their stated financial goals. We may offer an initial complimentary meeting upon our discretion; however, investment advisory services are initiated only after you and Trilogy execute an engagement letter or client agreement.

Investment Management and Supervision Services

We offer discretionary and non-discretionary investment management and investment supervisory services for a fee based on a percentage of your assets under management. The discretionary investment management services include investment analysis, allocation of investments, quarterly portfolio statements, financial commentaries, and ongoing monitoring of client portfolios.

We determine your portfolio composition based on your needs, your portfolio restrictions, if any, your financial goals and your risk tolerances. We will work with you to obtain necessary information regarding your financial condition, investment objectives, liquidity requirements, risk tolerance, time horizons, and any restrictions on investing. This information enables us to determine the portfolio best suited for your investment objective and needs.

In performing our services, we shall not be required to verify any information received from you or from other professionals. We may recommend and/or engage the services of other professionals for implementation purposes. You are under no obligation to engage the services of any such recommended professional.

We will rebalance the portfolio, as we deem appropriate, to meet your financial objectives. For discretionary accounts, we will trade these portfolios and rebalance them on a discretionary basis based on our market views and on your investment objectives, using our investment philosophy and process as outlined in Item 8 in this Brochure. We tailor our advisory services to meet the needs of our clients and seek to ensure that client portfolios are managed in a manner consistent with those financial needs and investment objectives.

We do have limited authority to direct the Custodian to deduct our investment advisory fees from your accounts, but only with the appropriate authorization by you on our Discretionary Investment Management Agreement and the Custodian paperwork.

You are advised and are expected to understand that our past performance is not a guarantee of future results. Certain market and economic risks exist that may adversely affect an account's performance. This could result in capital losses in your account.

There may be times a non-discretionary account relationship exists with our firm. In these circumstances, the client may call in to facilitate a trade on their account. Our Advisors will assist in facilitating the transaction on behalf of the client but we do not have continuous or supervisory oversight on such accounts and do not bill advisory fees for such relationships. The custodian charges additional fees such as transaction costs, custodial fees, redemption fees, retirement plan and administrative fees or commissions.

Coach – “Financial Coaching”

As an additional service to our investment management services described above, Trilogy provides financial consulting services (“Coaching & Advanced Planning”) based on the information provided by you regarding your individual financial objectives, needs and circumstances. The specific services to be provided are disclosed in the Coach Agreement but includes financial guidance for you with a focus on budgeting, tax strategies, education, and retirement planning. Services may include preparation of a comprehensive financial plan document and analysis with specific investment and/or planning recommendations, and an annual financial plan update. Our recommendations are based on the information you provide us; therefore, the completeness and accuracy of the information provided to us is essential. You agree to discuss with us your current financial resources and projected needs, and to provide copies of any financial documents that we may reasonably request as necessary to evaluate your financial circumstances and provide consulting services. You may choose to have us review and update the consulting recommendations annually or more frequently to adjust for changes in your financial situation or investment objectives. The recommendations should be reviewed and updated as necessary.

If agreed to by the Client under our Advanced Planning services, our Firm will provide a comprehensive financial plan. We will address any or all of the six areas of financial planning established by the National Endowment for Financial Education and endorsed by the Certified Financial Planner Board of Standards, depending on your specific needs. These may include: financial position, protection planning, investment planning, income tax planning, retirement planning, and estate planning.

Our specific services in preparing your Advanced Planning Written Plan may include:

- Review and clarification of your financial goals.
- Assessment of your overall financial position including cash flow, balance sheet, investment strategy, risk management and estate planning.
- Creation of a unique plan for each goal you have including personal and business real estate, education, retirement or financial independence, charitable giving, estate planning, business succession and other personal goals.
- Development of a goal-oriented investment plan around tax suggestions, asset allocation, expenses, risk, and liquidity factors for each goal. This includes IRA and qualified plans, taxable and trust accounts that require special attention.
- Design of a risk management plan including risk tolerance, risk avoidance, mitigation, and transfer, including liquidity as well as various insurance and possible company benefits.
- Crafting and implementation of, in conjunction with your estate and/or corporate attorneys as tax advisor, an estate plan to provide for you and/or your heirs in the event of an incapacity or death.
- Generation of a benefits plan, risk management plan and succession plan for your business, if applicable.

The fees and services for investment management and Coaching services are separate and distinct of each other. When engaging in Investment Management and Coaching services, clients enter into separate Agreements outlining each of the services and advisory/consulting fees.

When both investment management or plan implementation and Coaching services are offered, there is a conflict of interest since there is an incentive for us to recommend products or services for which Trilogy Capital receives compensation. However, Trilogy Capital will make all recommendations independent of such considerations and based solely on our obligations to consider your investment objectives and financial needs. As a Coach client, you have the right not to act upon any of our recommendations and not effect the transaction(s) through us if you decide to follow the investment recommendations.

General Consulting Services

We also provide general consulting services to clients which provide investment advice on a more-limited basis on one-or-more isolated areas of concern such as estate planning, retirement planning, or any other specific topic. Additionally, we may provide consulting on non-securities matters in connection with the rendering of estate planning, insurance, and/or annuity contracts. In these cases, you may be required to select your own investment managers, broker-dealer and/or insurance companies for the implementation of consulting recommendations. If your needs include brokerage and/or other financial services, we may recommend the use of one of several investment managers, brokers, banks, custodians, insurance companies or other financial professionals ("Firms"). You must independently evaluate these Firms before opening an account or transacting business and have the right to effect business through any firm you choose. You are under no obligation to follow the consulting advice that we provide.

Types of Retirement Plan Services

Our Firm offers (1) Discretionary Investment Management Services, (2) Non-Discretionary Investment Advisory Services and/or (3) Retirement Plan Consulting Services to employer-sponsored retirement plans and their participants. Depending on the type of Plan and the specific arrangement with the Sponsor, we may provide one or more of these services. Prior to being engaged by the Sponsor, we will provide a copy of this Form ADV Part 2A along with a copy of our Privacy Policy and Plan Sponsor Investment Management Agreement ("Agreement") that contains the information required under Sec. 408(b)(2) of the Employee Retirement Income Security Act ("ERISA") as applicable.

The Agreement authorizes our Investment Advisor Representatives ("IARs") to deliver one or more of the following services:

Discretionary Investment Management Services

These services are designed to allow the Plan fiduciary to delegate responsibility for managing, acquiring and disposing of Plan assets that meet the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA"). We will perform these investment management services through our IARs and charge fees as described in this Form ADV and the Agreement. If the Plan is subject to ERISA, we will perform these services as an "investment manager" as defined under ERISA Section 3(38) and as a "fiduciary" to the Plan as defined under ERISA Section 3(21). Specifically, the Sponsor may determine that we perform the following services:

SELECTION, MONITORING & REPLACEMENT OF DESIGNATED INVESTMENT ALTERNATIVES ("DIAs")

Our Firm will review with Sponsor the investment objectives, risk tolerance and goals of the Plan and provide to Sponsor an IPS that contains criteria from which we will select, monitor and replace the Plan's DIAs. Once approved by Sponsor, our Firm will review the investment options available to the Plan and will select the Plan's DIAs in accordance with the criteria set forth in

the IPS. On a periodic basis, we will monitor and evaluate the DIAs and replace any DIA(s) that no longer meet the IPS criteria.

SELECTION, MONITORING & REPLACEMENT OF QUALIFIED DEFAULT INVESTMENT ALTERNATIVES ("QDIA(s)")

Based upon the options available to the Plan, our Firm will select, monitor and replace the Plan's QDIA(s) in accordance with the IPS.

MANAGEMENT OF TRUST FUND

We will review with Sponsor the investment objectives, risk tolerance and goals of the Plan and provide to Sponsor an IPS that contains criteria from which our Firm will select, monitor and replace the Plan's investments. Once approved by Sponsor, we will review the investment options available to the Plan and will select the Plan's investments in accordance with the criteria set forth in the IPS. On a periodic basis, our Firm will monitor and evaluate the investments and replace any investment(s) that no longer meet the IPS criteria.

Non-Discretionary Investment Management Services

These services are designed to allow the Sponsor to retain full discretionary authority or control over assets of the Plan. We will solely be making recommendations to the Sponsor. We will perform these Non-Discretionary investment advisory services through our IARs and charge fees as described in this Form ADV and the Agreement. If the Plan is covered by ERISA, we will perform these investment advisory services to the Plan as a "fiduciary" defined under ERISA Section 3(21). The Sponsor may engage us to perform one or more of the following Non-Discretionary investment advisory services:

INVESTMENT POLICY STATEMENT ("IPS")

Our Firm will review with Sponsor the investment objectives, risk tolerance and goals of the Plan. If the Plan does not have an IPS, we will provide recommendations to Sponsor to assist with establishing an IPS. If the Plan has an existing IPS, our Firm will review it for consistency with the Plan's objectives. If the IPS does not represent the objectives of the Plan, we will recommend to Sponsor revisions to align the IPS with the Plan's objectives.

ADVICE REGARDING DESIGNATED INVESTMENT ALTERNATIVES ("DIAs")

Based on the Plan's IPS or other guidelines established by the Plan, our Firm will review the investment options available to the Plan and will make recommendations to assist Sponsor with selecting DIAs to be offered to Plan participants. Once Sponsor selects the DIAs, we will, on a periodic basis and/or upon reasonable request, provide reports and information to assist Sponsor with monitoring the DIAs. If a DIA is required to be removed, our Firm will provide recommendations to assist Sponsor with replacing the DIA.

ADVICE REGARDING QUALIFIED DEFAULT INVESTMENT ALTERNATIVE ("QDIA(s)")

Based on the Plan's IPS or other guidelines established by the Plan, our Firm will review the investment options available to the Plan and will make recommendations to assist Sponsor with selecting or replacing the Plan's QDIA(s).

PARTICIPANT INVESTMENT ADVICE

Our Firm will meet with Plan participants, upon reasonable request, to collect information necessary to identify the Plan participant's investment objectives, risk tolerance, time horizon, etc. We will provide written recommendations to assist the Plan participant with creating a portfolio using the Plan's DIAs or Models, if available. The Plan participant retains sole discretion over the investment of his/her account.

ADVICE REGARDING INVESTMENT OF TRUST FUND

Based on the Plan's IPS, our Firm will review the investment options available to the Plan and will make recommendations to assist Sponsor with selecting investments that meet the IPS criteria. Once Sponsor selects the investment(s), we will, on a periodic basis and/or upon reasonable request, provide reports and information to assist Sponsor with monitoring the investment(s). If the IPS criteria require any investment(s) to be replaced, our Firm will provide recommendations to assist Sponsor with replacing the investment(s).

Retirement Plan Consulting Services

Retirement Plan Consulting Services are designed to allow our IARs to assist the Sponsor in meeting his/her fiduciary duties to administer the Plan in the best interests of Plan participants and their beneficiaries. Retirement Plan Consulting Services are performed so that they would not be considered "investment advice" under ERISA. The Sponsor may elect for our IARs to assist with any of the following services:

ADMINISTRATIVE SUPPORT
✓ Assist Sponsor in reviewing objectives and options available through the Plan
✓ Review Plan committee structure and administrative policies/procedures
✓ Recommend Plan participant education and communication policies under ERISA 404(c)
✓ Assist with development/maintenance of fiduciary audit file and document retention policies
✓ Deliver fiduciary training and/or education periodically or upon reasonable request
✓ Recommend procedures for responding to Plan participant requests
SERVICE PROVIDER SUPPORT
✓ Assist fiduciaries with a process to select, monitor and replace service providers
✓ Assist fiduciaries with review of Covered Service Providers ("CSP") and fee benchmarking
✓ Provide reports and/or information designed to assist fiduciaries with monitoring CSPs
✓ Coordinate and assist with CSP replacement and conversion
INVESTMENT MONITORING SUPPORT
✓ Periodic review of investment policy in the context of Plan objectives
✓ Assist the Plan committee with monitoring investment performance
✓ Educate Plan committee members, as needed, regarding replacement of DIA(s) and/or QDIA(s)
PARTICIPANT SERVICES
✓ Facilitate group enrollment meetings and coordinate investment education
✓ Assist Plan participants with financial wellness education, retirement planning and/or gap analysis

Potential Additional Retirement Services Provided Outside of the Agreement

We and our IARs, in the course of providing Retirement Plan Services or otherwise, may establish a client relationship with one or more plan participants or beneficiaries. Such client relationships develop in various ways, including, without limitation:

- as a result of a decision by the plan participant or beneficiary to purchase services from us not involving the use of plan assets;
- as part of an individual or family financial plan for which any specific recommendations concerning the allocation of assets or investment recommendations relating to assets held outside of a plan; or
- through a rollover of an Individual Retirement Account ("IRA Rollover").

In providing these optional services, we may offer employers and employees information on other financial and retirement products or services offered by us and our IARs. If we are providing Retirement Plan Services to a plan, IARs may, when requested by a participant or beneficiary, arrange to provide services to that participant or beneficiary through a separate agreement.

When a participant requests assistance with an IRA Rollover from his/her plan to an account advised or managed by us, we will have a conflict of interest if our fees are reasonably expected to be higher than those we would otherwise receive in connection with the Retirement Plan Services. For participants invested in plans which we do not advise, we also have a conflict of interest given that we may not earn any compensation if they remain invested in their current plan. We will disclose relevant information about the applicable fees charged by us prior to opening an IRA account. Any decision to affect the rollover or about what to do with the rollover assets remain that of the plan participant or beneficiary alone.

Use of Sub-Advisors

Factors we will consider in recommending a particular sub-advisor include, but are not limited to, the client's stated investment objectives, management style, independence, stature of the custodian utilized by the sub-advisor, performance, philosophy, financial strength, continuation of management, client service, reporting, commitment to a particular investment mandate, fees, trading efficiency, and research.

We provide investment advice, recommendations and utilize the investment strategies of Outside Investment Managers ("Managers") through a sub-adviser relationship. Selected Managers are evaluated by us for use in a client's account. Managers selected by us may offer multiple strategies. Some of these strategies include the use of ESG criteria to build investment offerings. There are inherent risks involved in ESG investing. Please see Item 8 for details. Please inquire for additional information if interested in investing in these types of strategies. Our Firm will monitor Managers to ensure that it adheres to the philosophy and investment style for which it was selected and to ensure that its performance, portfolio strategies, and management remain aligned with the client's overall investment goals and objectives. We will retain discretionary authority to hire and fire the Manager. Our ongoing review includes, but is not limited to, assessment of the Manager's disclosure brochure, performance information, materials, personnel turnover, and regulatory events.

When we engage a Manager to invest a separately managed account ("SMA"), the SMA will be traded by either the Manager (externally-traded) or by our Firm (internally-traded). In both cases, all research, investment selections and portfolio decisions are the responsibility of the Manager, not by our Firm. Performance reporting may be the provided by the Manager.

Our Firm has entered into agreements with various independent Managers. Under these agreements, we offer clients various types of programs sponsored by these Managers. All third-party Managers to whom we will refer or engage for clients will be licensed as registered investment advisors by their resident state and any applicable jurisdictions or registered investment advisors with the U.S. Securities and Exchange Commission ("SEC").

Through our Discretionary Investment Management Agreement, the Client grants Trilogy Capital authority to utilize a sub-advisor. Trilogy Capital receives no compensation or additional benefits from the Manager related to this arrangement. Our Firm, in conjunction with the Manager, will continue to provide advisory services to the Client for the ongoing monitoring, review, and reporting of the overall account performance.

Third-party managed programs generally have account minimum requirements that will vary from investment advisor to investment advisor. A complete description of the Manager's services, fee schedules and account minimums will be disclosed in the Manager's Form ADV or similar Disclosure Brochure which will be provided to clients at the time an agreement for services is executed and account is established.

LPL Financial Sponsored Advisory Programs

We may provide advisory services through certain programs sponsored by LPL Financial LLC (LPL), a registered investment advisor and broker-dealer. Below is a brief description of each LPL advisory program available to our Firm. For more information regarding the LPL programs, including more information on the advisory services and fees that apply, the types of investments available in the programs and the potential conflicts of interest presented by the programs please see the program account packet (which includes the account agreement and LPL Form ADV program brochure) and the Form ADV, Part 2A of LPL or the applicable program.

Model Wealth Portfolios Program (MWP)

MWP offers clients a professionally managed mutual fund asset allocation program. Our Firm will obtain the necessary financial data from the client, assist the client in determining the suitability of the MWP program and assist the client in setting an appropriate investment objective. We will initiate the steps necessary to open an MWP account and have discretion to select a model portfolio designed by LPL's Research Department consistent with the client's stated investment objective. LPL's Research Department or third-party portfolio strategists are responsible for selecting the mutual funds or ETFs within a model portfolio and for making changes to the mutual funds or ETFs selected.

The client will authorize LPL to act on a discretionary basis to purchase and sell mutual funds and ETFs and to liquidate previously purchased securities. The client will also authorize LPL to effect rebalancing for MWP accounts.

MWP requires a minimum asset value for a program account to be managed. The minimums vary depending on the portfolio(s) selected and the account's allocation amongst portfolios. The lowest minimum for a portfolio is \$25,000. In certain instances, a lower minimum for a portfolio is permitted.

Wrap Fee Program

Trilogy Capital is the manager of the Trilogy Capital Wrap Program (the "Program"), a wrap fee program (i.e., an arrangement where brokerage commissions and transaction costs are absorbed by the Firm). The fee covers transaction costs or commissions resulting from the management of your accounts, however, most investments trade without transaction fees today, so our payment of these and other incidental custodial related expenses should not be considered a significant factor in determining the relative value of our wrap program. Participants in the Program may pay a higher aggregate fee than if brokerage services are purchased separately. Additional information about the Program is available in Trilogy Capital's Wrap Brochure, which appears as Part 2A Appendix 1 of the Firm's Form ADV. We adhere to our fiduciary duty when trading in your accounts. Trades are made only on the basis of the account's stated investment objectives, and without concern to the firm's trading costs and firm's expenses that trading the accounts will create. In order to mitigate this conflict of interest, we will fulfill our fiduciary duty by acting in the client's best interest.

All advisory accounts at LPL Financial are in our Wrap Fee Program. Clients will receive investment advisory services, the execution of securities brokerage transactions, custody, and reporting services for a single specified fee. The terms and conditions of a wrap program engagement are more fully discussed in LPL's Disclosure Brochure provided to prior to opening your account. The "wrap" fee program at LPL may be more or less than the fees and commissions charged by other advisory firms, third-party managers, and brokerage firms if the services were acquired separately. The factors that

bear upon the cost of services are the size of the account, type of transaction and whether trades are placed through a brokerage firm other than the custodian resulting in per trade commissions being charged.

IRA Rollover Considerations

If you have an employer-sponsored retirement plan, you have several choices as to what to do with your assets when you retire or separate from employment. As part of our consulting and advisory services, we may offer you recommendations or education only concerning your employer retirement plan or other qualified retirement account. Our recommendations may include you consider withdrawing the assets from your employer's retirement plan or other qualified retirement account and roll the assets over to an individual retirement account ("IRA"). Further, we offer our management services be applied to those funds and securities rolled into an IRA or other account for which we will receive compensation. If you elect to roll the assets to an IRA that is subject to our management, we will charge you an asset-based fee as described in our Firm's ADV Part 2A Brochure and Form CRS. This practice presents a conflict of interest because persons providing investment advice on our behalf have an incentive to recommend a rollover to you for the purpose of generating fee-based compensation rather than solely based on your needs. You are under no obligation, contractually or otherwise, to complete the rollover. Furthermore, if you do complete the rollover, you are under no obligation to have the assets in an IRA managed by us. It is important for you to understand many employers permit former employees to keep their retirement assets in their company plan. Also, current employees can sometimes move assets out of their company plan before they retire or change jobs. In determining whether to complete the rollover to an IRA, and to the extent the following options are available, you should, among other factors, consider impacts relating to costs and fees, available investments, services provided, simplicity and convenience, required minimum distributions, and early distribution penalties.

An employee will typically have four options:

1. Leave the funds in your existing employer plan.
2. Move the funds to a new employer plan.
3. Take a lump-sum distribution.
4. Roll the funds over to an IRA account.

You should carefully weigh the advantages and disadvantages of each option, including any applicable fees and all features of each option before making your decision. You should also consult your tax and/or legal advisor to determine any applicable tax consequences. Your financial advisor can provide you with information you need to consult with your tax and/or legal advisor and make the appropriate decisions to meet your specific needs, but it is ultimately your decision as to which option is best for you. The following are general factors that you should consider when making your decision.

1. If you keep your assets in certain types of employer-sponsored plans [e.g., 401(a) or 401(k)], consider:
 - *Tax Deferral.* Your money can continue to grow tax deferred within the plan.
 - *Additional Withdrawal Allowances.* There is no federal tax penalty for withdrawals if you are age 59 ½ or separated from employment during or after the calendar year in which you reach age 55.
 - *Low-Cost Investment Options/Investment Strategy.* You may have access to lower priced mutual funds or special products that are not available in an IRA, such as company stock, fixed annuity contracts or stable value options. Your current plan may offer model portfolio options at no additional cost.
 - *No Asset Management Services.* It is likely you will not be charged a management fee and will not receive ongoing asset management services or advice unless you elect to have such services. In the event your plan offers asset management or model portfolio

management, there may be a fee associated with the service that is more or less than our asset management fee.

- *Protection from Creditors.* Assets in a retirement savings plan such as a 401(k) or 403(b) are generally protected from creditors and legal judgments, while assets in IRAs receive more limited protections from creditors.
 - *Deferral of Required Minimum Distributions (RMD's).* Your employer-sponsored retirement plan may offer this feature if you are currently working for the sponsoring employer and are over age 72.
 - *Availability of Company Stock as an Investment Option.* If you hold company stock in your former employer's plan, you should consider the impact of net unrealized appreciation.
 - *Outstanding Loan Balances.* If you leave your employment, you may be able to continue repaying any outstanding loan. Alternatively, you may be required to repay the loan in full or have it become taxable. (Consult with the Plan's Administrator to determine the consequences of any outstanding plan loan.)
 - *Subject to Plan Limitations.* Accounts of inactive or retired participants may have limitations, such as restrictions on plan loans. The employer might change plans or plan provisions in the future. You can no longer make contributions to the plan.
 - *Plan Advice and Service.* Your Plan may allow you to hire us as the manager and keep the assets titled in the plan and/or your current plan may offer financial advice or guidance at no additional costs.
2. If you rollover assets into another employer-sponsored plan, consider:
- *Tax Deferral / Additional Withdrawal Allowances / Low-Cost Investment Options / Protection from Creditors / RMD Deferrals.* Like keeping your assets in your existing employer-sponsored plan, if you move your assets into new employer's retirement plan, you may likely receive similar benefits such as these, as noted above.
 - *Consolidation of Retirement Accounts.* It may be easier to track your assets and manage your retirement plan accounts with all your money in one place.
 - *Plan Limitation on Accepting Rollover Assets.* You must check with the receiving employer-sponsored plan to confirm that it is willing to accept rollovers.
 - *Possible Limitations on Access to Funds Rolled into Plan.* Check with the receiving employer-sponsored plan to confirm that the plan does not impose any restrictions on your ability to access or withdraw funds rolled into the plan.
3. If you take a lump-sum distribution, consider:
- *Withdrawals May be Subject to Withholding, Taxes, Penalties and Other Charges.* If you are under the age 59½, the withdrawal will be subject to mandatory tax withholding as well as applicable tax penalties for early withdrawal. Note, there are limited exceptions to the penalty tax (e.g., payments made to you after you separate from service if you are age 55 or over in the year in which you separate). Note also that the penalty tax does not apply to distributions from a governmental 457(b) plan. You may also be subject to surrender charges or penalties assessed under the terms of the applicable investment.
4. If you rollover assets into an IRA from an employer-sponsored plan, consider:
- *Tax Deferral.* Your money can continue to grow tax deferred. No taxes or penalties are applicable for direct rollovers of pre-tax contributions to traditional IRAs or direct rollovers of Roth contributions to Roth IRAs.
 - *More Investment Options.* IRAs generally allow for a broader range of investment options, which include mutual funds, exchange-traded funds, stocks and bonds.
 - *Asset Management and Additional Services.* You should understand the asset management programs and various services we offer and you might take advantage of and the cost of those services.

- *Consolidation of Retirement Accounts.* Combining all retirement plan accounts into a single IRA makes it easier to track your assets and manage required minimum distributions required under federal tax laws.
- *Inability to Take Plan Loans/Limited Access to Monies Prior to age 59 ½.* You will not have the ability to take penalty-free withdrawals as a plan loan. In addition, your access to IRA assets prior to age 59 ½ will be limited to certain specific circumstances, such as first-time homebuyers and higher education expenses.
- *Conflicts of Interest.* Your financial advisor has a financial incentive to recommend an IRA rollover because of the compensation that he/she receives for our management services.
- *Loss of Plan Options.* You may lose certain options offered by your former plan, which often include, but are not limited to, guaranteed interest rates, death benefits and protection from creditors (under certain plan types).
- *Charges for Rollovers.* Surrender charges could be imposed by the former provider if the account included an annuity.

It is important that you understand the differences between these types of accounts and to decide whether a rollover is best for you. Prior to proceeding if you have questions contact your financial advisor.

Participant Account Management (Discretionary)

We use a third-party platform to facilitate management of held away assets such as defined contribution plan participant accounts, with discretion. The platform allows us to avoid being considered to have custody of Client funds since we do not have direct access to Client log-in credentials to affect trades. We are not affiliated with the platform in any way and receive no compensation from them for using their platform. A link will be provided to the Client allowing them to connect an account(s) to the platform. Once Client account(s) is connected to the platform, Advisor will review the current account allocations. When deemed necessary, Advisor will rebalance the account considering client investment goals and risk tolerance, and any change in allocations will consider current economic and market trends. The goal is to improve account performance over time, minimize loss during difficult markets, and manage internal fees that harm account performance. Client account(s) will be reviewed at least quarterly, and allocation changes will be made as deemed necessary.

Periods of Inactivity

Our Firm has a fiduciary duty to provide services consistent with the client's best interest. As part of its investment advisory services, our Firm will review client portfolios on an ongoing basis to determine if any changes are necessary based upon various factors, including, but not limited to, investment performance, fund manager tenure, style drift, and/or a change in the client's investment objective. Based upon these factors, there may be extended periods of time when our Firm determines that changes to a client's portfolio are neither necessary nor prudent. Of course, as indicated below, there can be no assurance that investment decisions made by our Firm will be profitable or equal any specific performance level(s). Clients nonetheless remain subject to the fees described in Item 5 below during periods of account inactivity.

Assets

As of December 31, 2025, we managed a total \$3,210,026,097 in regulatory assets under management. A total of \$2,945,923,990 are managed under a discretionary arrangement and a total of \$264,102,107 are managed under a non-discretionary arrangement.

ITEM 5 - FEES AND COMPENSATION

Investment Management Fees and Compensation

Trilogy charges a fee as compensation for providing Investment Management services on your account. These services include advisory and consulting services, sub-advisory, trade entry, investment supervision, and other account-maintenance activities. Our custodian may charge transaction costs, custodial fees, redemption fees, retirement plan and administrative fees or commissions. See Additional Fees and Expenses below for additional details.

In addition, some mutual fund assets deposited in your accounts may have been subject to other mutual fund annual management and administrative fees as described in the funds' prospectuses. These fees are independent of our fees and should be disclosed by the custodian or contained in each fund's prospectus. You should also note that fees for comparable services vary and lower fees for comparable services may be available from other sources.

The Advisory Fees will be calculated and paid to our firm each calendar month in arrears based on the average daily value of the Portfolio during the previous calendar month (calculated based on the Portfolio's value at the end of each day). Under the average daily balance method, each day's balance for the month is summed then divided by the number of days in the month, to compute the average daily balance. The average daily balance is then multiplied by the monthly portion of the annual fee to determine the monthly fee due. Fees are assessed on all assets under management, including securities, cash, and money market balances. Margin balances are included as part of assets under management for purposes of calculating Trilogy Capital's advisory fee.

In the event of termination, any paid but unearned fees will be promptly refunded to the Client based on the number of days that the Portfolio was managed, and any fees due to Trilogy Capital will be deducted from the Client's account prior to termination.

For purposes of this fee calculation, "value of the Portfolio" means the sum of the fair market value of all of the holdings in the Portfolio. Equity securities listed or traded on a national securities exchange or quoted on the over-the-counter market are valued at the last sales price on the day of valuation or, if no sale price is reported, at the last bid price.

Trilogy Capital's maximum investment advisory fee is 2.00%. The specific advisory fees are set forth in your Investment Advisory Agreement. Fees may vary based on the size of the account, complexity of the portfolio, extent of activity in the account or other reasons agreed upon by us and you as the client. In certain circumstances, our fees and the timing of the fee payments may be negotiated.

At our discretion, we will aggregate asset amounts in accounts from your same household together to determine the advisory fee for all your accounts. We may do this, for example, where we also service accounts on behalf of your minor children, individual and joint accounts for a spouse, and/or other types of related accounts. This consolidation practice is designed to allow you the benefit of an increased asset total, which could potentially cause your account(s) to be assessed a lower advisory fee based on the asset levels available in our fee schedule.

The independent qualified custodian holding your funds and securities will debit your account directly for the advisory fee and pay that fee to us. You will provide written authorization permitting the fees to be paid directly from your account held by the qualified custodian. Further, the qualified custodian agrees to deliver an account statement at least quarterly directly to you indicating all the amounts deducted from the account including our advisory fees. See Item 15 for details. At our discretion, you may pay the advisory fees by check. You are encouraged to review your account statements for accuracy.

There may be a possibility for price or account value discrepancies due to month-end transactions in an account. Dividends or trade date settlements may occur, and our third-party billing software may report a slight difference in account valuation at month end compared to what is reported on your Statement from the Custodian.

Either Trilogy or you may terminate the management agreement immediately upon written notice to the other party. The management fee will be pro-rated to the date of termination, for the month in which the cancellation notice was given and any earned fees will be billed to your account. Upon termination, you are responsible for monitoring the securities in your account, and we will have no further obligation to act or advise with respect to those assets.

Fees for Sub-Advisory relationships

As discussed in Item 4 above, there are occasions where Manager acts in a sub-advisor capacity to our Firm. Under this arrangement, the Manager invests the assets based upon the parameters provided by our Firm. Depending on the agreement with the Manager, the total advisory fee will be collected by the custodian and the portion of the advisory fee is sent to the Manager and our Firm. This total fee includes our Firm's portion of the investment advisory fee as well as the Manager's fee. The fee billed is defined in the relevant Discretionary Investment Management Agreement as well as in the individual Form ADV Filing of the respective Manager.

The Manager's relationship may be terminated at our Firm's discretion. We may at any time terminate the relationship with a Manager. We will notify you of instances where we have terminated a relationship with any Manager(s) you are investing with. Factors involved in the termination of a Manager may include a failure to adhere to their stated management style or your objectives, a material change in the professional staff of the sub-advisor, unexplained poor performance, unexplained inconsistency of account performance, or our decision to no longer include the Manager on our approved list.

Managers generally do not have any direct contact with our clients. They provide services directly to us and we are solely responsible for client accounts. Upon entering into an agreement for advisory services with us, clients authorize us to use these Managers to service their account, including executing trades, billing, and the deduction of fees from client accounts. Clients agree to allow us to share non-public, personal information with these unrelated third-party service providers for the purpose of administering and managing the clients' accounts.

Trilogy Capital and LPL may share in the account fee and other fees associated with the Wrap Fee Program accounts. Associated persons of Trilogy Capital may also be registered representatives of LPL and conflict disclosure language can be found in Item 10 of this Brochure. For LPL advisory program accounts in MWP, the account fee charged to the client is negotiable, subject to a maximum total account fee of 2.25%. The MWP account fee consists of an LPL program fee, a strategist fee (if applicable) and a Trilogy Capital advisory fee. Refer to LPL's MWP Program Brochure for more information.

Coach Fees

Fees may vary based on the extent and complexity of your individual personal circumstances. Any fee will be agreed in advance of services being performed. The fee will be determined based on factors including the complexity of your financial situation, agreed upon deliverables, and whether you intend to implement any recommendations through your financial advisor. Fixed fees for coaching services start at \$1200.

Three fee payment options are available for Coaching services:

Option 1: 12 Monthly Payments of a \$100 via third party payment processor.

Option 2: Full Payment of \$1,200 via Check or third party payment processor.

Option 3: Waived \$1,200 for Clients over \$250k in managed assets.

Two fee payment options are available for Advanced Planning:

Option 1: \$1,200 up front, \$1,200 at delivery via Check or third party payment processor

Option 2: Waived \$2,400 for Clients over \$500k in managed assets.

Fees can be paid via check to Trilogy Capital from your personal bank account or can be invoiced and processed through a third-party nonaffiliated service, third party payment processor. Clients will be asked to set up their bank account or credit card at third party payment processor to enable credit card or ACH payments. While third party payment processor allows firms like Trilogy Capital to receive payments directly from the client's credit card or bank account, it does not give Trilogy Capital access to the bank account itself, nor to any of the client's credit card or bank account information. Trilogy Capital is not able to initiate any additional payments via third party payment processor as agreed upon and outlined in the Agreement.

The Coach Agreement is terminated after 1 (one) year.

We will not require prepayment of more than \$1200 in fees per client, six (6) or more months in advance of providing any services. Lower fees for comparable services may be available from other sources.

General Consulting Services

Trilogy provides planning services for clients who need advice on a limited scope of work. Trilogy will negotiate consulting fees with you. Fees may vary based on the extent and complexity of the consulting project. Fees are negotiated and you will be billed as services are rendered.

Either party may terminate the agreement. Upon termination, services provided up to date of termination but not yet paid to Trilogy Capital will be billed to you based on the agreed upon hourly rate outlined in the Consulting Agreement.

Employee Retirement Income Security Act Retirement Plan Advisory Services

Fees for the Retirement Plan Services ("Fees") are negotiable and vary based upon the nature, scope and frequency of our services as well as the size and complexity of the plan. A general description of the different types of fees for Retirement Plan Services appears in the fee schedule below:

<u>Fee Type</u>	<u>Fee Range Maximum</u>
<u>Asset-Based Fees</u>	Negotiable based upon size of plan, number of participants, nature, scope and frequency of services provided. Maximum fee is 2.00%
<u>Flat Fees</u>	Negotiable based upon size of plan, number of participants, nature, scope and frequency of services provided
<u>Project or Hourly Fees</u>	Negotiable based upon scope of work performed

Depending upon the capabilities and requirements of the Plan's recordkeeper or custodian, we may collect our Fees in arrears or in advance. Typically, Sponsors instruct the Plan's recordkeeper or custodian to automatically deduct our Fees from the Plan account; however, in some cases a Sponsor may request that we send invoices directly to the Sponsor or recordkeeper/custodian.

Sponsors receiving Retirement Plan Services may pay more than or less than a client might otherwise pay if purchasing the Retirement Plan Services separately or through another service provider. There are

several factors that determine whether the costs would be more or less, including, but not limited to, the size of the Plan, the specific investments made by the Plan, the number of or locations of Plan participants, services offered by another service provider, and the actual costs of Retirement Plan Services purchased elsewhere. In light of the specific Retirement Plan Services offered by us, the Fees charged may be more or less than those of other similar service providers.

In determining the value of the Account for purposes of calculating any asset-based Fees, our Firm will rely upon the valuation of assets provided by Sponsor or the Plan's custodian or recordkeeper without independent verification.

Unless we agree otherwise, no adjustments or refunds will be made in respect of any period for (i) appreciation or depreciation in the value of the Plan account during that period or (ii) any partial withdrawal of assets from the account during that period. If the Agreement is terminated by us or by Sponsor, we will refund certain Fees to Sponsor to the extent provided in Section 8 of the Agreement. Unless we agree otherwise, all Fees shall be based on the total value of the assets in the account without regard to any debit balance.

All Fees paid to us for Retirement Plan Services are separate and distinct from the fees and expenses charged by mutual funds, variable annuities and exchange-traded funds to their shareholders. These fees and expenses are described in each investment's prospectus. These fees will generally include a management fee, other expenses, and possible distribution fees. If the investment also imposes sales charges, a client may pay an initial or deferred sales charge. The Retirement Plan Services we provide may, among other things, assist the client in determining which investments are most appropriate to each client's financial condition and objectives and to provide other administrative assistance as selected by the client. Accordingly, the client should review both the fees charged by the funds, the fund manager, the Plan's other service providers and the fees charged by us to fully understand the total amount of fees to be paid by the client and to evaluate the Retirement Plan Services being provided.

In the event we receive any third-party payments or subsidies in connection with our Retirement Plan Services, we will disclose such fees to Sponsors in accordance with ERISA and Department of Labor regulations.

No increase in the Fees will be effective without prior written notice.

Additional Fees and Expenses:

Advisory fees payable to us do not include all the fees you will pay when we purchase or sell securities for your Account(s). The following list of fees or expenses are what you may pay directly to third parties only, whether a security is being purchased, sold, or held in your Account(s) under our management.

- Transaction fees
- SEC fees
- Custodial fees
- Transfer taxes
- Wire transfer and electronic fund processing fees
- Mark Down and Mark Ups for Fixed Income Strategies (Continuity Portfolio Series)
- Mutual Fund Internal Expenses
- Maintenance Fees

There are certain securities or investments a client wishes to purchase or hold in their account. These investment products may carry fees from the delivering firm to the Custodian. Custodians may also charge an additional fee for select securities and/or alternative investments to be included in the holdings of their account.

Examples of the investments outside the typical securities that may have additional fees at the Custodian:

- REITS (To be billed by custodian - \$100 initial purchase fee, \$250 annual holding fee, \$100 redemption fee)

Please refer to the “Brokerage Practices” below for discussion of Trilogy’ brokerage practices.

Administrative Services Provided by Orion

Trilogy has contracted with Orion to utilize its technology platforms to support data reconciliation, performance reporting, fee calculation and billing, client database maintenance, quarterly performance evaluations, payable reports, and other functions related to the administrative tasks of managing client accounts. Due to this arrangement, Orion will have access to client information, but Orion will not serve as an investment advisor to our clients. Trilogy and Orion are non-affiliated companies. Orion charges our Firm an annual fee for each account administered by Orion. Please note that the fee charged to the client will not increase due to the annual fee Trilogy pays to Orion. The annual fee is paid from the portion of the management fee retained by our Firm.

Dually Registered Persons

Certain investment adviser representatives of our Firm are also associated with LPL Financial as broker-dealer registered representatives (“Dually Registered Persons”). In their capacity as registered representatives of LPL Financial, certain Dually Registered Persons may earn commissions for the sale of securities or investment products that they recommend for brokerage clients. They do not earn commissions on the sale of securities or investment products recommended or purchased in advisory accounts through Trilogy Capital. Clients have the option of purchasing many of the securities and investment products we make available to you through another broker-dealer or investment adviser. However, when purchasing these securities and investment products away from Trilogy Capital you will not receive the benefit of the advice and other services we provide.

Treatment of Mutual Fund Share Classes

Mutual funds often offer multiple share classes with differing internal fee and expense structures. Our firm’s planning methodology does not include the purchase of mutual fund portfolios. However, if mutual funds are transferred to our platform, they may not be the lowest cost share class option. Other instances that may not include the lowest share class include but are not limited to:

- ***Instances in which the custodian that holds your account offers others a share class with a lower internal fee and expense structure than what is available to our Firm at the same custodian:*** In such instances, our Firm will select the lowest cost share class that the custodian makes available. This situation sometimes occurs because the custodian places conditions on the availability of the lower cost share class that our Firm has determined are not appropriate to accept due to additional costs imposed by said conditions.
- ***Instances in which a share class with a lower internal fee and expense structure than the share class you currently hold is available at your custodian, but there are limitations as it relates to share class eligibility, custodian restrictions, or additional fees/taxes that the conversion would trigger:*** Our Firm cannot convert to a share class with a lower internal fee and expense structure if the account is ineligible (e.g., the fund company only allows certain types of registration types to use the share class or the account doesn’t meet the investment minimum for the share class) or if the fund company won’t accept a conversion if the share amount is too small. Our Firm also cannot convert to a lower internal fee and expense structure if the custodian will not allow it (e.g., custodial restrictions). Also, our Firm does not convert to a share class with a lower internal fee and expense structure if the conversion will cause a taxable event or other expense/cost to you that negates the advantage of the lower cost share class.

• **Instances in which a Model Manager selects a share class for inclusion in a model that is not the lowest cost share class available:** Our firm uses model managers that build investment portfolios that are designed to meet the needs of our clients and fall within in their risk scores. Our firm does not have the authority to modify or provide input to the selection of the securities in the model.

• **Instances in which you make your own investment selections in a Client-Directed Account:** In such circumstances, our Firm does not screen for the lowest mutual fund share class available.

Regulatory Fees

To facilitate the execution of trades, regulatory Trading Activity Fees (TAF) are added to applicable sales transactions. The Securities and Exchange Commission (SEC) regulatory fee is assessed on client accounts for sell transactions, and a FINRA fee is assessed on client accounts for sell transactions, for certain covered securities. This fee is not charged by our Firm but is assessed and collected by the custodian. The Custodians that our Firm uses, are FINRA member firms. These fees recover the costs incurred by the SEC and FINRA, for supervising and regulating the securities markets and securities professionals. The fee rates vary depending on the type of transaction and the size of that transaction.

For more information on the SEC and FINRA fees, please visit their websites:

www.sec.gov/fast-answers/answerssec31htm.html

www.finra.org/industry/trading-activity-fee

ITEM 6 - PERFORMANCE BASED FEES AND SIDE-BY-SIDE MANAGEMENT

We do not charge advisory fees on a share of the capital appreciation of the funds or securities in a client account (so-called performance-based fees). Our advisory-fee compensation is charged only as disclosed above in Fees and Compensation.

ITEM 7 - TYPES OF CLIENTS

We provide investment advice to individuals, high-net-worth individuals, families, small businesses, pensions, foundations, trusts and estates. Our minimum initial account value is \$5,500; however, we may accept accounts for less than the minimum.

Our Retirement Plan Services are available to clients that are sponsors or other fiduciaries to plans, including 401(k), 457(b), 403(b) and 401(a) plans. Plans include participant-directed defined contribution plans and defined benefit plans. Plans may or may not be subject to ERISA.

ITEM 8 - METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

Overview

We seek to recommend investment strategies that will give a client a diversified portfolio consistent with the client's investment objective. We do this by analyzing the various securities, investment strategies, and third-party management firms. The goal is to identify a client's risk tolerance, and then find a manager with the maximum expected return for that level of risk.

Our investment strategies and advice may vary depending upon each client's specific financial situation. As such, we determine investments and allocations based upon your predefined objectives, risk tolerance, time horizon, financial horizon, financial information, liquidity needs, and other various suitability factors. Your restrictions and guidelines may affect the composition of your portfolio.

We utilize both fundamental and technical analysis. We gather our information from a broad array of financial resources including financial newspapers, magazines, research prepared by others, corporate rating services, company press releases, annual reports, prospectuses and filings with the Securities and Exchange Commission.

We determine how to allocate assets among the various asset classes based on the client's investment strategy that is chosen, prevailing economic conditions and our determination of where we are in the economic cycle. Potential risks and opportunities are weighed to determine to what degree the portfolio should be invested.

From time-to-time, market conditions may cause your account to vary from the established allocation. To remain consistent with the asset allocation guidelines established, your account is monitored on an ongoing basis and rebalanced to the original allocation, or if deemed beneficial, to a new allocation based on the then prevailing economic conditions and within the guidelines of the chosen investment strategy.

In addition to the rebalancing, overall market conditions and microeconomic factors that affect specific holdings in your account may trigger changes in allocation. Your account may also receive informal reviews more frequently.

Investment Philosophy

Prior to making recommendations, we determine your financial status, needs, time horizon, investment objectives, risk tolerance, and tax status. From this, we create an investor profile and general asset allocation target. While we believe asset allocation is a key factor affecting long-term rate of return, we also believe fundamental research and securities selection are vital. To that end, we select from a narrow, refined list of institutional fund managers known for excellence in their respective disciplines. We focus primarily on the people, processes, research, consistency, and culture rather than simply recent "high performance" or "track record".

As much as reasonably possible, we strive to:

- Diversify strategically with non-correlating assets.
- Balance between growth and value styles.
- Diversify globally.
- Rebalance as markets change.
- Manage for tax efficient returns wherever possible.

Portfolios

Trilogy Capital offers strategic portfolios designed to be risk based. The portfolios all have different levels of risk/return trade-off (potential return that can be gained with the amount of risk taken). The risk/return trade-off is based upon the client's risk tolerance, financial planning needs and/or financial goals. Each of these investment strategies are globally diversified to help reduce specific company, sector, or asset class risk. These core strategies are evaluated on long term performance. This means our Firm is evaluating how portfolios do over three-, five- and ten-year periods as opposed to shorter timeframes. Below are the Portfolio series offered:

- ✓ **Core Portfolio Series:** A family of investment strategies including both strategic and tactically-managed portfolios focused on globally-balanced strategies, intended to span broad market exposure not focused on any one sector or geographic region.
- ✓ **Select Portfolio Series:** A family of investment strategies focused on actively managed portfolios of sector or strategy focused securities. These strategies seek to provide investors with non-correlated returns to the Core series as well as potential alpha as compared to

standard benchmark. Additional risk factors are noted below for certain portfolios and potential investors need to meet certain criteria to invest in some of the non-traditional investment portfolios.

- ✓ **Foundation Portfolio Series:** A family of investment strategies focused on portfolios for smaller accounts. These strategies are designed for investors who cannot meet the minimums for the Core series and would still like access to globally-invested, actively – rebalanced strategy.
- ✓ **Continuity Portfolio Series:** An asset management arrangement by which we oversee long-term held assets such as individual bonds and other income-producing strategies. These portfolios will often require less active management due to the buy-and-hold strategy.

While non-traditional investments may offer potential benefits when used in conjunction with traditional stock and bond portfolios there are additional risks to consider. For example, some non-traditional strategies will utilize ETFs with exposure to commodities and the use of leverage to meet their portfolio objectives. As with any investment, it is very important to read prospectus information and work with your advisor to educate yourself on the potential risks and rewards of the strategies that may be considered for inclusion for your portfolio. Refer to Risk of Loss section below for additional information.

Where appropriate, our Firm may utilize interval funds in client portfolios. An interval fund is a non-traditional type of closed-end mutual fund that periodically offers to buy back a percentage of outstanding shares from shareholders. Certain Traded Interval Funds can be purchased by our Firm directly with the Client's custodian without any prior authorization from the client. In these cases, our Firm will purchase these interval funds on a discretionary basis only when it deems the investments to be suitable for the client. In other cases, certain Non-Traded Interval Funds required the client to execute fund documents in order to invest. In these situations, our Firm will not be able to purchase the Non-Traded Interval Funds on a discretionary basis. Both Traded and Non-Traded Interval Funds are subject to all of the risks and limitations outlined in the Risk language below.

Where appropriate, our Firm may utilize Structured Notes in client portfolios. Structured Notes are designed to facilitate highly customized risk-return objectives. While structured products come in many different forms, they typically consist of a debt security that is structured to make no interest payments but a principal payment based upon various assets, rates, or formulas. Structured Notes can be purchased by the Firm directly with the Client's custodian without any prior authorization from the client. Our Firm will purchase Structured Notes on a discretionary basis only when it deems the investments to be suitable for the client and will do so without notifying the client in advance of the specific terms and conditions of each note. See additional disclosures in Risk Language below.

Sub-Advisor, Independent Third-Party Manager & Investment Subscription Services

We seek to recommend investment strategies that will give a client a diversified portfolio consistent with the Client's investment objective. We do this by analyzing the various securities, investment strategies, and third-party management firms. The goal is to identify a Client's risk tolerance, and then find a manager with the maximum expected return for that level of risk.

We examine the experience, expertise, investment philosophies and past performance of independent, third-party managers in an attempt to determine if that Manager has demonstrated an ability to invest over a period of time and in different economic conditions. We monitor the Managers' underlying holdings, strategies, concentrations, and leverage as part of our overall periodic risk assessment. Additionally, as part of our due-diligence process, we survey the Managers' compliance and business enterprise risks.

A risk of investing with a third-party Manager who has been successful in the past is that he/she may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in a managers' portfolio, there is also a risk that the Manager may deviate from the stated investment mandate or strategy of the portfolio, making it a less suitable investment for our clients. Moreover, as we do not control the Managers' daily business and compliance operations, we may be unaware of the lack of internal controls necessary to prevent business, regulatory or reputational deficiencies.

Our Firm does engage the services of unaffiliated and independent registered investment advisor(s) ("Signal Providers") to receive buy and sell signals, research, or other information that the Firm uses to manage a particular strategy/portfolio. Such Signal Providers will not act as fiduciaries with respect to any client as they are engaged to provide market-related services to our Firm. In providing individualized investment advice, our Firm will invest a client's assets in accordance with the recommendations of one or more Signal Providers or may invest the account in any manner it deems appropriate based on the client's personal objectives. All fees incurred by the subscription to various Signal Providers are paid by Trilogy (as a percentage of the fees generated within a particular strategy). Thus, a portion of the advisory fee paid by a client to Trilogy may be used to compensate such third-party providers or consultants.

Risk of Loss

Clients must understand that past performance is not indicative of future results. Therefore, current, and prospective clients should never assume that future performance of any specific investment or investment strategy will be profitable. Investing in securities involves risk of loss. Further, depending on the different types of investments there will be varying degrees of risk. Clients and prospective clients should be prepared to bear investment loss including loss of original principal.

Because of the inherent risk of loss associated with investing, our Firm is unable to represent, guarantee, or even imply that our services and methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate you from losses due to market corrections or declines. Investors should be aware that accounts are subject to the following risks:

Market Risk - Even a long-term investment approach cannot guarantee a profit. Economic, political, and issuer-specific events will cause the value of securities to rise or fall. Because the value of investment portfolios will fluctuate, there is the risk that you will lose money and your investment may be worth more or less upon liquidation.

Foreign Securities and Currency Risk - Investments in international and emerging-market securities include exposure to risks such as currency fluctuations, foreign taxes and regulations, and the potential for illiquid markets and political instability.

Capitalization Risk - Small-cap and mid-cap companies may be hindered as a result of limited resources or less diverse products or services, and their stocks have historically been more volatile than the stocks of larger, more established companies.

Interest Rate Risk - In a rising rate environment, the value of fixed-income securities generally declines, and the value of equity securities may be adversely affected.

Credit Risk - Credit risk is the risk that the issuer of a security may be unable to make interest payments and/or repay principal when due. A downgrade to an issuer's credit rating or a perceived change in an issuer's financial strength may affect a security's value and, thus, impact the fund's performance.

Securities Lending Risk - Securities lending involves the risk that the fund loses money because the borrower fails to return the securities in a timely manner or at all. The fund could also lose money if the value of the collateral provided for loaned securities, or the value of the investments made with the cash collateral, falls. These events could also trigger adverse tax consequences for the fund.

Exchange-Traded Funds - ETFs face market-trading risks, including the potential lack of an active market for shares, losses from trading in the secondary markets and disruption in the creation/redemption process of the ETF. Any of these factors may lead to the fund's shares trading at either a premium or a discount to its "net asset value."

Performance of Underlying Managers - We select the mutual funds and ETFs in the asset allocation portfolios. However, we depend on the manager of such funds to select individual investments in accordance with their stated investment strategy.

Liquidity Risk - Liquidity risk exists when particular investments would be difficult to purchase or sell, possibly preventing clients from selling such securities at an advantageous time or price.

Derivative Risk - Derivatives are securities, such as futures contracts, whose value is derived from that of other securities or indices. Derivatives can be used for hedging (attempting to reduce risk by offsetting one investment position with another) or non-hedging purposes. Hedging with derivatives may increase expenses, and there is no guarantee that a hedging strategy will achieve the desired results.

Bond Mutual Funds and Laddered Individual Bonds - A laddered individual bond portfolio is comprised of individual bonds where each bond or series of bonds features strategically staggered maturity dates at regular intervals. As each bond or series of bonds matures, proceeds are used to purchase new bonds to continue the bond ladder, or they are used as income. Both laddered individual bonds held in a laddered bond portfolio and bond funds generally have higher risks than money market funds, largely because they typically pursue strategies aimed at producing higher returns. Unlike money market funds, the SEC's rules do not restrict bond funds and laddered individual bonds to high quality or short-term investments. Because there are many different types of bonds, bond funds and laddered individual bonds, they can vary dramatically in their risks and rewards. Some of the risks associated with bond funds and laddered individual bonds include:

Interest Rate Risk - Interest rate risk refers to the risk that the market value of bonds will go down when interest rates go up. Because of this risk, investors can lose money in any bond fund or laddered individual bond portfolio, if a bond were sold before its maturity date. Interest rate risk applies to investments in insured bonds and U.S. Treasury Bonds. Longer-term bonds and bond funds tend to have higher interest rate risks.

Credit Risk - Credit risk refers to the risk that companies or other issuers may fail to pay their debts (including the debt owed to holders of their bonds). Consequently, this affects individual bond ladders, mutual funds, and exchange-traded funds (ETFs) that hold these bonds. Credit risk is less of a factor in investments including insured bonds or U.S. Treasury Bonds. By contrast, those that invest in the bonds of companies with poor credit ratings generally will be subject to higher risk.

Prepayment Risk - Issuers may choose to pay off debt earlier than the stated maturity date on a bond. For example, if interest rates fall, a bond issuer may decide to "retire" its debt and issue new bonds that pay a lower rate. When this happens, proceeds from the sale of individual bonds or a bond fund may not be able to be reinvested in an investment with as high a return or yield.

Cybersecurity Risk - In addition to the Material Investment Risks listed above, investing involves various operational and “cybersecurity” risks. These risks include both intentional and unintentional events at our firm or one of its third-party counterparties or service providers, that may result in a loss or corruption of data, result in the unauthorized release or other misuse of confidential information, and generally compromise our Firm’s ability to conduct its business. A cybersecurity breach may also result in a third-party obtaining unauthorized access to our clients’ information, including social security numbers, home addresses, account numbers, account balances, and account holdings. Our Firm has established business continuity plans and risk management systems designed to reduce the risks associated with cybersecurity breaches. However, there are inherent limitations in these plans and systems, including that certain risks may not have been identified, in large part because different or unknown threats may emerge in the future. As such, there is no guarantee that such efforts will succeed, especially because our Firm does not directly control the cybersecurity systems of our third-party service providers. There is also a risk that cybersecurity breaches may not be detected.

Responsible Investing and ESG Risk - Clients utilizing responsible investing strategies and environment, social responsibility, and corporate governance (ESG) factors may underperform strategies which do not utilize responsible investing and ESG considerations. Responsible investing and ESG strategies may operate by either excluding the investments of certain issuers or by selecting investments based on their compliance with factors such as ESG. This strategy may exclude certain sectors or industries from a client’s portfolio, potentially negatively affecting the client’s investment performance if the excluded sector or industry outperforms. Responsible investing and ESG are subjective by nature, and our Firm may rely on analysis and ‘scores’ provided by third parties in determining whether an issuer meets our Firm’s standards for inclusion or exclusion. A client’s perception may differ from our Firm or a third parties on how to judge an issuers adherence to responsible investing principles.

Commodities Risk – Our Firm’s use of commodities in a client’s portfolio would be limited to ETF’s and only investments approved on our recommended Custodian’s platform. Investments in commodity-linked investments, including commodity derivatives, may subject the Account to greater volatility than investments in traditional securities. To the extent a strategy concentrates assets in a particular sector of the commodities market (such as oil, metal, Bitcoin, environmental or agricultural products), it may be more susceptible to risks associated with those sectors. The prices for commodities in those sectors may fluctuate widely due to factors such as supply and demand disruptions in major producing or consuming regions, and governmental regulatory policies. Further, ability to invest in certain commodity interests may be limited due to applicable regulations pertaining to position limits.

Structured Notes - Structured products are designed to facilitate highly customized risk- return objectives. While structured products come in many different forms, they typically consist of a debt security that is structured to make no interest payments but a principal payment based upon various assets, rates, or formulas. Many structured products include an embedded derivative component. Structured products may be structured in the form of a security, in which case these products may receive benefits provided under federal securities law, or they may be cast as derivatives, in which case they are offered in the over-the-counter market and are subject to no regulation. Investment in structured products includes significant risks, including valuation, liquidity, price, credit/issuer default, and market risks. One common risk associated with structured products is a relative lack of liquidity due to the highly customized nature of the investment. Moreover, the full extent of returns from the complex performance features is often not realized until maturity. As such, structured products tend to be more of a buy-and-hold investment decision rather than a means of trading in and out of a position with speed and efficiency. Another risk with structured products is the credit quality and related default risk of the issuer. Although the cash flows are derived from other sources, the products themselves are legally considered to be the issuing financial institution’s liabilities. The

vast majority of structured products are from investment-grade issuers, but that does not eliminate default risk by the issuer. Also, there is a lack of pricing transparency. Our Firm will value structured notes at the price determined by the client's custodian, it will not attempt to assess the value of structured notes independently for the purposes of client reporting and billing. There is no uniform standard for pricing, making it harder to compare the net-of-pricing attractiveness of alternative structured product offerings than it is, for instance, to compare the net expense ratios of different mutual funds or commissions among broker-dealers. Our Firm will purchase Structured Notes on a discretionary basis in client portfolios only when the investment is suitable for the client, without notifying the client in advance of the specific terms and conditions of each note. **Option Risk-** Variable degree of risk. Transactions in options carry a high degree of risk. Purchasers and sellers of options should familiarize themselves with the type of option (i.e., put or call) which they contemplate trading and the associated risks. Traders of options should calculate the extent to which the value of the options must increase for the position to become profitable, taking into account the premium and all transaction costs.

- The purchaser of options may offset or exercise the options or allow the options to expire. The exercise of an option results either in a cash settlement or in the purchaser acquiring or delivering the underlying interest. If the option is on a future, the purchaser will acquire a futures position with associated liabilities for margin (see the section on Futures below). If the purchased options expire worthless, the purchaser will suffer a total loss of the investment. In purchasing deep out-of-the-money options, the purchaser should be aware that the chance of such options becoming profitable ordinarily is remote.
- Selling ("writing" or "granting") an option generally entails considerably greater risk than purchasing options. Although the premium received by the seller is fixed, the seller may sustain a loss well in excess of that amount. The seller will be liable for additional margin to maintain the position if the market moves unfavorably. The seller will also be exposed to the risk of the purchaser exercising the option and the seller being obligated to either settle the option in cash or to acquire or deliver the underlying interest. If the option is on a future, the seller will acquire a position in a future with associated liabilities for margin (see the section on Futures below). If the option is "covered" by the seller holding a corresponding position in the underlying interest or a future or another option, the risk may be reduced. If the option is not covered, the risk of loss can be unlimited.
- Certain exchanges in some jurisdictions permit deferred payment of the option premium, exposing the purchaser to liability for margin payments not exceeding the amount of the premium. The purchaser is still subject to the risk of losing the premium and transaction costs. When the option is exercised or expires, the purchaser is responsible for any unpaid premium outstanding at that time.

Interval Fund Risk - Where suitable, our Firm may utilize interval funds in client portfolios. An interval fund is a non-traditional type of closed-end mutual fund that periodically offers to buy back a percentage of outstanding shares from shareholders. Investments in an interval fund involve additional risk, including lack of liquidity and restrictions on withdrawals at the fund sponsor's sole discretion. During any time periods outside of the specified repurchase offer window(s), investors will be unable to sell their shares of the interval fund. There is no assurance that an investor will be able to tender shares when or in the amount desired. There can also be situations where an interval fund has a limited amount of capacity to repurchase shares and may not be able to fulfill all purchase orders. In addition, the eventual sale price for the interval fund could be less than the interval fund value on the date that the sale was requested. While an interval fund periodically offers to repurchase a portion of its securities, there is no guarantee that investors may sell their shares at any given time or in the desired amount. As interval funds can expose investors to liquidity risk, investors should consider interval fund shares to be an illiquid investment. Typically, the interval funds are not listed on any securities exchange and are not publicly traded. Thus, there is no secondary market for the fund's shares. Because these types of investments involve certain

additional risk, these funds will only be utilized when consistent with a client's investment objectives, individual situation, suitability, tolerance for risk and liquidity needs. Investment should be avoided where an investor has a short-term investing horizon and/or cannot bear the loss of some, or all, of the investment. The fund sponsor determines the fund price which investors will transact at based solely on its internal policies and procedures for valuing the non-traded assets within the fund. There can be no assurance that an interval fund investment will prove profitable or successful. In light of these enhanced risks, a client may direct our Firm, in writing, not to employ any or all such strategies for the client's account. Certain Traded Interval Funds can be purchased by our Firm directly with the Client's custodian without any prior authorization from the client. In these cases, our Firm will purchase these interval funds on a discretionary basis only when it deems the investments to be suitable for the client. In other cases, certain Non-Traded Interval Funds required the client to execute fund documents in order to invest. In these situations, our Firm will not be able to purchase the Non-Traded Interval Funds on a discretionary basis. Both Traded and Non-Traded Interval Funds are subject to all of the risks and limitations outlined above.

Energy Sector Risk - The profitability of companies in the energy sector is related to worldwide energy prices, exploration, and production spending. Such companies also are subject to risks of changes in exchange rates, government regulation, world events, depletion of resources and economic conditions, as well as market, economic and political risks of the countries where energy companies are located or do business. Oil and gas exploration and production can be significantly affected by natural disasters. Oil exploration and production companies may be adversely affected by changes in exchange rates, interest rates, government regulation, world events, and economic conditions. Oil exploration and production companies may be at risk for environmental damage claims.

Artificial Intelligence and Machine Learning - Certain service providers utilized by the Firm to service client accounts have artificial intelligence components, such as our client relationship management system that utilizes artificial intelligence to summarize client meeting notes. The use of artificial intelligence and machine learning includes increased risk of data inaccuracies and security vulnerabilities. Due to the rapid advancement of machine learning technologies, future risks related to artificial intelligence are unpredictable. As a measure to mitigate these risks to our clients, our Firm performs periodic due diligence of our service providers for assurance that the service providers have appropriate controls in place to protect our clients' information and to limit data inaccuracies when artificial intelligence is used by the service provider.

Use of Margin - There may be times when a client decides to use margin in their account. Use of margin in an investment advisory account can increase a client's asset-based advisory fee. If margin is used to purchase additional securities, for instance, the total value of eligible account assets (to which the Firm advisory fee is applied) will also increase. Notably, the opportunity to increase assets via margin debt presents a potential conflict of interest for Trilogy Capital. We recognize that margin debt is not suitable for all investors. It is our practice to recommend that clients utilize such financing in a prudent manner (if at all). Buying securities on margin also subjects clients to additional costs and risks that should be carefully considered before opening a margin account.

Additional disclosure Trilogy Private Markets Strategy:

In certain cases, our Firm can recommend that a portion of the client's assets be invested in certain exchange traded, interval and mutual funds which primarily invest in private investment funds, also known as private placements.

- Meet Risk Level Criteria

- Minimum investment into Private Markets Strategy: \$100k
- Shares are appropriate only for those investors who can tolerate a high degree of risk, and do not require a liquid investment.
- There is no assurance that you will be able to tender your shares when or in the amount that you desire. Although the Fund will offer quarterly liquidity through a quarterly repurchase process, an investor may not be able to sell or otherwise liquidate all their shares tendered during a quarterly repurchase offer.

Such funds are described as hedge funds, real estate funds, private equity funds, venture capital funds, and other types of private pooled investment vehicles (collectively “Private Funds”). When determining which clients should receive a recommendation to invest in the Private Fund, our Firm considers many factors, including, but not limited to, the client’s investment sophistication, risk tolerances and qualifications, investment objectives, liquidity needs, and the amount of available assets in the client’s account(s). Our goal is to allocate in a fair and balanced manner; however, given these differing factors, the allocation of investment opportunities in Private Funds to our clients is mainly subjective, and not all qualifying clients will be provided a particular private investment opportunity.

For those clients that receive a recommendation to invest in Private Markets Strategy, it is important to read each prospectus which covers several of the risks outlined in specific offering documents (e.g., private placement memorandum, limited partnership agreement, subscription agreement, and important disclosures) prior to investing to fully understand the risks and potential conflicts of interest pertaining to the Private Fund investment.

When determining which clients should receive a recommendation to invest in a Private Fund, our Firm takes into account a number of factors, including but not limited to a client’s sophistication, risk tolerances and qualifications, investment objectives, liquidity needs, and the amount of available investable assets. Our goal is to allocate in a fair and balanced manner; however, given these differing factors, the allocation of investment opportunities in Private Funds to clients is mainly subjective, and not all qualifying clients will be provided an investment opportunity. Additionally, there are times when one or more the Firm’s employees invest in certain Private Funds that are recommended to clients. It is important that qualifying clients receiving a recommendation to invest in a Private Fund read the offering or private placement memorandum prior to investing to fully understand the risks and potential conflicts pertaining to the Private Fund investment.

ITEM 9 - DISCIPLINARY INFORMATION

Trilogy does not have any legal, financial, or other “disciplinary” item to report.

ITEM 10 - OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

Insurance

An affiliated entity, Trilogy Financial is a licensed insurance agency with various States. Investment Advisor Representatives (“IAR”) of Trilogy may act as agents appointed with various life, disability, or other insurance companies, receive commissions, trails, or other compensation from the respective product sponsors and/or as a result of effecting insurance transactions for clients. However, clients should note that they are under no obligation to purchase any insurance products through Trilogy or its IAR. Please note that IARs spend less than 10% of their time on business relating to Insurance.

Broker Dealer/Other Registered Investment Advisor Affiliations

Trilogy is not a broker/dealer, but some of our Investment Advisor Representatives (“IAR”) are registered representatives of LPL Financial LLC (“LPL”), a full-service broker-dealer, member FINRA/SIPC, which compensates them for effecting securities transactions. When placing securities transactions through LPL in their capacity as registered representatives, they will earn sales

commissions. Because some of the IARs are dually registered representatives and agents of LPL and Trilogy, LPL has certain supervisory and administrative duties pursuant to the requirements of FINRA Conduct Rule 3280. LPL and Trilogy are not affiliated companies. Some of the IARs of Trilogy spend a portion their time in connection with broker/dealer activities. A select number of our Firm's IARs are dually registered as Investment Advisor Representatives under LPL Financials' RIA. These select dually registered individuals participate in the Retirement Plan Consulting Professional program under the LPL RIA. The dual affiliation is required to service only legacy retirement plan account(s) held at LPL.

As a broker-dealer, LPL engages in a broad range of activities normally associated with securities brokerage firms. Pursuant to the investment advice given by Trilogy or its IARs, investments in securities may be recommended for clients. If LPL is selected as the broker-dealer, LPL and its registered representatives, including some of the IARs of Trilogy, may individually receive commissions for executing securities transactions.

You are advised that if LPL is selected as the broker-dealer, the transaction charges may be higher or lower than the charges you may pay if the transactions were executed at other broker/dealers. You should note, however, that you are under no obligation to purchase securities through IARs of Trilogy or LPL.

Moreover, you should note that under the rules and regulations of FINRA, LPL has an obligation to maintain certain client records and perform other functions regarding certain aspects of the investment advisory activities of its registered representatives. These obligations require LPL to coordinate with, and have the cooperation of its registered representatives that operate as, or are otherwise associated with, investment advisors other than LPL. Accordingly, LPL may limit the use of certain custodial and brokerage arrangements available to clients of Trilogy and LPL may collect, as paying agent of Trilogy, the investment advisory fee remitted to Trilogy by the account custodian. LPL may retain a portion of the investment advisory fee you pay, as a charge for the functions it performs, and such portion may be further re-allowed to other registered representatives of LPL. The charge will not increase the advisory fee you have agreed to pay Trilogy.

Some of the IARs of Trilogy, in their capacity as registered representatives of LPL, or as agents appointed with various life, disability or other insurance companies, receive insurance commissions, fee trails, or other compensation from the respective product sponsors and/or as a result of effecting securities transactions for clients. However, clients should note that they are under no obligation to purchase any investment products through Trilogy's representatives.

As a result of the relationship with LPL, LPL Financial may have access to certain confidential information (e.g., financial information, investment objectives, transactions and holdings) about Trilogy Capital's clients, even if client does not establish any account through LPL. If you would like a copy of the LPL Financial privacy policy, please contact our firm's CCO. The contact information for the CCO can be found on the Cover Page of this Brochure.

Please refer to Item 12 for a discussion of the benefits Trilogy Capital may receive from LPL Financial and the conflicts of interest associated with receipt of such benefits.

Benefits to Investment Advisor Representatives

Trilogy Capital and its related person Trilogy Financial provide various benefits to Registered Persons (IARs) that are new to the Trilogy Capital to assist the Advisor with the costs associated with transitioning his or her business to the Trilogy Capital. The amount of the benefits are in some cases significant in relation to the overall revenue earned or compensation received by the IAR at his/her prior

firm. Such payments are generally based on the size of the IAR's business established at his/her prior firm and/or assets under management with Trilogy Capital. Please refer to the relevant Part 2B brochure supplement for more information about the specific benefits your IAR receives.

These benefits are provided to persons of Trilogy in their capacity as IARs of Trilogy. However, the receipt of benefits by such IARs creates conflicts of interest relating to Trilogy's advisory business because it creates a financial incentive for Trilogy's IARs to recommend that its clients maintain their accounts with Trilogy. In certain instances, the receipt of such benefits is dependent on as IAR maintaining its clients' assets with Trilogy therefore Trilogy has an incentive to recommend that clients maintain their account with Trilogy in order to generate such benefits.

Trilogy attempts to mitigate these conflicts of interest by evaluating and recommending that clients use Trilogy's services based on the benefits that such services provide to our clients, rather than the benefits earned by any Trilogy Capital IAR. Trilogy and its IARs will always act in the best interest of their clients when recommending advisory services.

Sub-Advisor Relationships

As described in Item 4 – Advisory Business and Item 5 – Fees and Compensation, Trilogy has formed relationships with independent, investment advisors to serve as sub-advisors. When we utilize a third-party Manager, you need to know that our firm will pay the Manager a portion of the total fee billed to the Client.

Promoter Arrangements

Trilogy has promoter agreements with unaffiliated registered investment advisory firms, where Trilogy is a promoter for the named firm. Such a promoter arrangement, if any, is on a per client basis, and the client along with Trilogy and the unaffiliated firm executes a disclosure notifying them of the particulars of such an arrangement.

Trilogy's promoter agreements are with firms only and Trilogy does not have any agreements and arrangements with individuals whether licensed or otherwise.

Outside Business Activities

Investment Advisory Representatives ("IAR") of Trilogy Capital have properly disclosed outside business activities where they act in the capacity of an attorney, insurance agent, registered representative or mortgage broker. At no time should any IAR of Trilogy Capital discuss or provide these services while acting in the capacity as an IAR of Trilogy Capital.

ITEM 11 - CODE OF ETHICS PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS AND PERSONAL TRADING

Trilogy and persons associated with us are allowed to invest for their own accounts or to have a financial interest in the same securities or other investments that we recommend or acquire for your account, and may engage in transactions that are the same as or different than transactions recommended to or made for your account. This creates the potential for a conflict of interest. We recognize the fiduciary responsibility to place your interests first and have established policies in this regard to avoid any potential conflicts of interest.

We have developed and implemented a Code of Ethics that sets forth standards of conduct expected of our advisory personnel to mitigate this conflict of interest. The Code of Ethics addresses, among other things, personal trading, gifts, the prohibition against the use of inside information and other situations where there is a possibility for conflicts of interest.

The Code of Ethics is designed to protect our clients by deterring misconduct, educate personnel regarding the firm's expectations and laws governing their conduct, remind personnel that they are in a position of trust and must act with complete propriety at all times, protect the reputation of Trilogy, guard against violation of the securities laws, and establish procedures for personnel to follow so that we may determine whether their personnel are complying with the firm's ethical principles.

We have established the following restrictions in order to ensure our firm's fiduciary responsibilities:

1. No director, officer or employee of Trilogy shall prefer his or her own interest to that of the advisory client.
2. We maintain a list of all securities holdings, and anyone associated with this advisory practice with access to advisory recommendations. These holdings are reviewed on a regular basis by an appropriate officer/individual of Trilogy.
3. We emphasize the unrestricted right of the client to decline to implement any advice rendered, except in situations where we are granted discretionary authority of the client's account.
4. We emphasize the unrestricted right of the client to select and choose any broker-dealer (except in situations where we are granted discretionary authority) he or she wishes.
5. We require that all individuals must act in accordance with all applicable Federal and State regulations governing registered investment advisory practices.
6. Any individual not in observance of the above may be subject to termination.

You may request a complete copy of our Code by contacting us at the address, telephone, or email on the cover page of this Part 2; Attn: Chief Compliance Officer.

ITEM 12 - BROKERAGE PRACTICES

Trilogy does not maintain custody of your assets on which we advise, although we may be deemed to have custody of your assets if you give us authority to withdraw assets from your account (see Item 15—Custody, below). Your assets must be maintained in an account at a "qualified custodian," generally a broker-dealer or bank. We refer to our relationships with Charles Schwab & Co. ("Schwab"), Inc and LPL Financial combined as the Custodian ("the Custodian"), both broker-dealers registered with the Securities and Exchange Commission and a member of FINRA and SIPC.

We are independently owned and operated and not affiliated with Custodian. Custodian will act solely as a broker-dealer and not as an investment advisor to you. It will have no discretion over your account and will act solely on instructions it receives from us [or you]. Custodian has no responsibility for our services and undertakes no duty to you to monitor our firm's management of your account or other services we provide to you. Custodian will hold your assets in a brokerage account and buy and sell securities and execute other transactions when we [or you] instruct them to. (Please see the disclosure under Item 14 below.)

We are independently owned and operated and are not affiliated with either Custodian. Either Custodian will hold your assets in a brokerage account and buy and sell securities when we instruct them to. While we require that you use either Custodian as custodian/broker, you will decide whether to do so and will open your account with Custodian by entering into an account agreement directly with them. Conflicts of interest associated with this arrangement are described below as well as in Item 14 (Client referrals and other compensation). You should consider these conflicts of interest when selecting your custodian.

We do not open the account for you, although we may assist you in doing so. If you do not wish to place your assets with Custodian, then we cannot manage your account. Even though your account is maintained at Custodian, and we anticipate that most trades will be executed through Custodian, we can still use other brokers to execute trades for your account as described below.

How we select brokers/custodians

We seek to use custodians/brokers that will hold your assets and execute transactions. When considering whether the terms that Custodian provide are, overall, most advantageous to you when compared with other available providers and their services, we take consider a wide range of factors, including:

- Combination of transaction execution services and asset custody services (generally without a separate fee for custody)
- Capability to execute, clear, and settle trades (buy and sell securities for your account)
- Capability to facilitate transfers and payments to and from accounts (wire transfers, check requests, bill payment, etc.)
- Breadth of available investment products (stocks, bonds, mutual funds, exchange-traded funds [ETFs], etc.)
- Availability of investment research and tools that assist us in making investment decisions
- Quality of services
- Competitiveness of the price of those services (commission rates, margin interest rates, other fees, etc.) and willingness to negotiate the prices
- Reputation, financial strength, security and stability
- Prior service to us and our clients
- Services delivered or paid for by Schwab
- Availability of other products and services that benefit us, as discussed below (see “Products and services available to us from Schwab”)

Your brokerage and custody costs

For our clients’ accounts that Schwab maintains, Schwab generally does not charge you separately for custody services but is compensated by charging you commissions or other fees on trades that it executes or that settle into your Schwab account. Certain trades (for example, many mutual funds and ETFs) may not incur Schwab commissions or transaction fees. Schwab are also compensated by earning interest on the uninvested cash in your account.

Although we are not required to execute all trades through Schwab, we have determined that having Schwab execute most trades is consistent with our duty to seek “best execution” of your trades. Best execution means the most favorable terms for a transaction based on all relevant factors, including those listed above (see “How we select brokers/custodians”). By using another broker or dealer you may pay lower transaction costs.

Products and services available to us from Schwab:

- Schwab Advisor Services™ is Schwab’s business serving independent investment advisory firms like us. They provide us and our clients with access to their institutional brokerage services (trading, custody, reporting, and related services), many of which are not typically available to Schwab retail customers. However, certain retail investors may be able to get institutional brokerage services from Schwab without going through us.
- Schwab also makes available various support services. Some of those services help us manage or administer our clients’ accounts, while others help us manage and grow our business. Schwab’s support services are generally available on an unsolicited basis (we don’t have to request them) and at no charge to us. Following is a more detailed description of Schwab’s support services:
- Services that benefit you. Schwab’s institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of client assets.

- The investment products available through Schwab include some to which we might not otherwise have access or that would require a significantly higher minimum initial investment by our clients.
- Schwab's services described in this paragraph generally benefit you and your account.
- Services that do not directly benefit you. Schwab also makes available to us other products and services that benefit us but do not directly benefit you or your account. These products and services assist us in managing and administering our clients' accounts and operating our firm. They include investment research, both Schwab's own and that of third parties. We use this research to service all or a substantial number of our clients' accounts, including accounts not maintained at Schwab. In addition to investment research, Schwab also makes available software and other technology that:
 - Provide access to client account data (such as duplicate trade confirmations and account statements)
 - Facilitate trade execution and allocate aggregated trade orders for multiple client accounts
 - Provide pricing and other market data
 - Facilitate payment of our fees from our clients' accounts
 - Assist with back-office functions, recordkeeping, and client reporting
 Services that generally benefit only us. Schwab also offers other services intended to help us manage and further develop our business enterprise. These services include:
 - Educational conferences and events
 - Consulting on technology and business needs
 - Consulting on legal and related compliance needs
 - Publications and conferences on practice management and business succession
 - Access to employee benefits providers, human capital consultants, and insurance providers
 - Marketing consulting and support

Our interest in Schwab's services

We believe that taken in the aggregate, our recommendation of Schwab as custodian and broker is in the best interests of our clients. Our selection is primarily supported by the scope, quality, and price of Schwab's services (see "How we select brokers/ custodians") and not Schwab's services that benefit only us.

There is no direct link between our participation in the program and the investment advice we give to our clients, although we receive economic benefits through our participation in the program that are typically not available to any other independent investment advisors participating in the program. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving advisor participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to us by third party vendors. Schwab may also have paid for business consulting and professional services received by some of our related persons. Some of the products and services made available by Schwab through the program may benefit us but may not benefit your account. These products or services may assist us in managing and administering your account, including accounts not maintained at Schwab. Other services made available by Schwab are intended to help us manage and further develop our business enterprise. The benefits received by our firm or our personnel through

participation in the program do not depend on the amount of brokerage transactions directed to Schwab. As part of our fiduciary duties to clients, we endeavor at all times to put the interests of our clients first. You should be aware, however, that the receipt of economic benefits by our Firm or our related persons in and of itself creates a conflict of interest and may indirectly influence our choice of Schwab for custody and brokerage services.

In the event you request us to recommend a broker/dealer custodian for execution and/or custodial services, we generally recommend your account to be maintained at Schwab. We may recommend that you establish accounts with Schwab to maintain custody of your assets and to effect trades for your accounts. You are under no obligation to act upon any recommendations, and if you elect to act upon any recommendations, you are under no obligation to place the transactions through any broker/dealer we recommend. Our recommendation is generally based on the broker's cost and fees, skills, reputation, dependability and compatibility with the client. You may be able to obtain lower commissions and fees from other brokers and the value of products, research and services given to us is not a factor in determining the selection of broker/dealer or the reasonableness of their commissions.

Recommendation of LPL Financial

Trilogy Capital will generally recommend and request that clients establish a brokerage account with LPL Financial to maintain custody of clients' assets and to effect trades for their accounts. LPL Financial provides brokerage and custodial services to independent investment advisory firms, including Trilogy Capital. For Trilogy Capital's accounts custodied at LPL Financial, LPL Financial generally is compensated by clients through commissions, trails, or other transaction-based fees for trades that are executed through LPL Financial or that settle into LPL Financial accounts. For IRA accounts, LPL Financial generally charges account maintenance fees. In addition, LPL Financial also charges clients miscellaneous fees and charges, such as account transfer fees. LPL Financial charges Trilogy Capital an asset-based administration fee for administrative services provided by LPL Financial. Such administration fees are not directly borne by clients, but may be taken into account when Trilogy Capital negotiates its advisory fee with clients.

While LPL Financial does not participate in, or influence the formulation of, the investment advice Trilogy Capital provides, certain supervised persons of Trilogy Capital are Dually Registered Persons. Dually Registered Persons are restricted by certain FINRA rules and policies from maintaining client accounts at another custodian or executing client transactions in such client accounts through any broker-dealer or custodian that is not approved by LPL Financial. As a result, the use of other trading platforms must be approved not only by Trilogy Capital, but also by LPL Financial.

Clients should also be aware that for accounts where LPL Financial serves as the custodian, Trilogy Capital is limited to offering services and investment vehicles that are approved by LPL Financial, and may be prohibited from offering services and investment vehicles that may be available through other broker-dealers and custodians, some of which may be more suitable for a client's portfolio than the services and investment vehicles offered through LPL Financial.

Clients should understand that not all investment advisers require, request or recommend that clients custody their accounts and trade through specific broker-dealers.

Clients should also understand that LPL Financial is responsible under FINRA rules for supervising certain business activities of Trilogy Capital and its Dually Registered Persons that are conducted through broker-dealers and custodians other than LPL Financial. LPL Financial charges a fee for its oversight of activities conducted through these other broker-dealers and custodians. This arrangement presents a conflict of interest because Trilogy Capital has a financial incentive to recommend that you

maintain your account with LPL Financial rather than with another broker-dealer or custodian to avoid incurring the oversight fee.

LPL Benefits Received by Trilogy Capital Personnel

LPL Financial makes available to Trilogy Capital various products and services designed to assist Trilogy Capital in managing and administering client accounts. Many of these products and services may be used to service all or a substantial number of Trilogy Capital's accounts, including accounts not held with LPL Financial. These include software and other technology that provide access to client account data (such as trade confirmation and account statements); facilitate trade execution (and aggregation and allocation of trade orders for multiple client accounts); provide research, pricing information and other market data; facilitate payment of Trilogy Capital's fees from its clients' accounts; and assist with back-office functions; recordkeeping and client reporting.

LPL Financial also makes available to Trilogy Capital other services intended to help Trilogy Capital manage and further develop its business. Some of these services assist Trilogy Capital to better monitor and service program accounts maintained at LPL Financial, however, many of these services benefit only Trilogy Capital, for example, services that assist Trilogy Capital in growing its business. These support services and/or products may be provided without cost, at a discount, and/or at a negotiated rate, and include practice management-related publications; consulting services; attendance at conferences and seminars, meetings, and other educational and/or social events; marketing support; and other products and services used by Trilogy Capital in furtherance of the operation and development of its investment advisory business.

Where such services are provided by a third party vendor, LPL Financial will either make a payment to Trilogy Capital to cover the cost of such services, reimburse Trilogy Capital for the cost associated with the services, or pay the third party vendor directly on behalf of Trilogy Capital.

The products and services described above are provided to Trilogy Capital as part of its overall relationship with LPL Financial. While as a fiduciary Trilogy Capital endeavors to act in its clients' best interests, the receipt of these benefits creates a conflict of interest because Trilogy Capital's [requirement, request or recommendation] that clients custody their assets at LPL Financial is based in part on the benefit to Trilogy Capital of the availability of the foregoing products and services and not solely on the nature, cost or quality of custody or brokerage services provided by LPL Financial. Trilogy Capital's receipt of some of these benefits may be based on the amount of advisory assets custodied on the LPL Financial platform.

Transition Assistance Benefits

LPL Financial provides various benefits and payments to Dually Registered Persons that are new to the LPL Financial platform to assist the representative with the costs (including foregone revenues during account transition) associated with transitioning his or her business to the LPL Financial platform (collectively referred to as "Transition Assistance"). The proceeds of such Transition Assistance payments are intended to be used for a variety of purposes, including but not necessarily limited to, providing working capital to assist in funding the Dually Registered Person's business, satisfying any outstanding debt owed to the Dually Registered Person's prior firm, offsetting account transfer fees (ACATs) payable to LPL Financial as a result of the Dually Registered Person's clients transitioning to LPL Financials' custodial platform, technology set-up fees, marketing and mailing costs, stationary and licensure transfer fees, moving expenses, office space expenses, staffing support and termination fees associated with moving accounts.

The amount of the Transition Assistance payments are often significant in relation to the overall revenue earned or compensation received by the Dually Registered Person at his/her prior firm. Such payments

are generally based on the size of the Dually Registered Person's business established at his/her prior firm and/or assets under custody on the LPL Financial. Please refer to the relevant Part 2B brochure supplement for more information about the specific Transition Payments your representative receives.

Transition Assistance payments and other benefits are provided to associated persons of Trilogy Capital in their capacity as registered representatives of LPL Financial. However, the receipt of Transition Assistance by such Dually Registered Persons creates conflicts of interest relating to Trilogy Capital's advisory business because it creates a financial incentive for Trilogy Capital's representatives to recommend that its clients maintain their accounts with LPL Financial. In certain instances, the receipt of such benefits is dependent on a Dually Registered Person maintaining its clients' assets with LPL Financial and therefore Trilogy Capital has an incentive to recommend that clients maintain their account with LPL Financial in order to generate such benefits.

Trilogy Capital attempts to mitigate these conflicts of interest by evaluating and recommending that clients use LPL Financial's services based on the benefits that such services provide to our clients, rather than the Transition Assistance earned by any particular Dually Registered Person. Trilogy Capital considers LPL Financial's availability of investment research and tools that assist us in making investment decisions and the competitiveness of the price of those services (commission rates, margin rates, other fees, etc. and the willingness to negotiate them when recommending or requiring that clients maintain accounts with LPL Financial. However, clients should be aware of this conflict and take it into consideration in making a decision whether to custody their assets in a brokerage account at LPL Financial.

Employer Sponsored Retirement Plans

For employer-sponsored retirement plans with participant-directed investments, clients must maintain assets in an account at a qualified custodian, generally a broker-dealer, trust company or bank. The custodian will hold client assets in a brokerage account and buy and sell mutual funds when we instruct them to. Each Plan Sponsor must decide which custodian to utilize and open accounts with the custodian by entering account agreements directly with them. The accounts will always be held in the name of the client and never in Trilogy's name.

In the event you request us to recommend a Custodian for execution and/or custodial services, we generally recommend your account to be maintained at the Custodian. We may recommend that you establish accounts with the Custodian to maintain custody of your assets and to effect trades for your accounts. You are under no obligation to act upon any recommendations, and if you elect to act upon any recommendations, you are under no obligation to place the transactions through any Custodian we recommend. Our recommendation is generally based on the broker's cost and fees, skills, reputation, dependability and compatibility with the client. You may be able to obtain lower commissions and fees from other brokers and the value of products, research and services given to us is not a factor in determining the selection of Custodian or the reasonableness of their commissions.

We do not select or recommend broker/dealers based upon receiving client referrals from a Custodian or third-party. We do not routinely recommend, request, or require that you direct us to execute transaction through a specified broker/dealer. Additionally, we typically do not permit you to direct brokerage.

We place trades for your account subject to our duty to seek best execution and other fiduciary duties. We may use a broker/dealer other than your Custodian to execute trades for your account. The practice of using other broker/dealers may result in additional costs to you so that we are more likely to place trades through your custodian rather than through other broker/dealers. Your custodian's execution quality may be different than other broker/dealers.

We will aggregate trades for ourselves or our associated persons with your trades, providing that the following conditions are met:

1. Our policy for the aggregation of transactions shall be fully disclosed separately to our existing clients (if any) and the broker/dealer(s) through which such transactions will be placed.
2. We will not aggregate transactions unless we believe that aggregation is consistent with our duty to seek the best execution (which includes the duty to seek best price) for you and is consistent with the terms of our investment advisory agreement with you for which trades are being aggregated.
3. No advisory client will be favored over any other client; each client that participates in an aggregated order will participate at the average share price for all our transactions in a given security on a given business day, with transaction costs based on each client's participation in the transaction.
4. We will prepare a written statement ("Allocation Statement") specifying the participating client accounts and how to allocate the order among those clients.
5. If the aggregated order is filled in its entirety, it will be allocated among clients in accordance with the allocation statement; if the order is partially filled, the accounts that did not receive the previous trade's positions should be "first in line" to receive the next allocation.
6. Notwithstanding the foregoing, the order may be allocated on a basis different from that specified in the Allocation Statement if all client accounts receive fair and equitable treatment and the reason for difference of allocation is explained in writing and is reviewed by our compliance officer. Our books and records will separately reflect, for each client account, the orders of which aggregated, the securities held by, and bought for that account.
7. We will receive no additional compensation or remuneration of any kind as a result of the proposed aggregation; and
8. Individual advice and treatment will be accorded to each advisory client.

As a matter of policy and practice, we do not utilize research, research-related products and other services obtained from broker-dealers, or third-parties, on a soft-dollar commission basis.

Trade Errors

We have implemented procedures designed to prevent trade errors; however, trade errors in client accounts cannot always be avoided. Consistent with our fiduciary duty, it is our policy to correct trade errors in a manner that is in the best interest of our clients. In cases where a client causes the trade error, the client will be responsible for any loss resulting from the correction. Depending on the specific circumstances of the trade error, the client may not be able to receive any gains generated as a result of the error correction. In all situations where the client does not cause the trade error, the client will be made whole, and we will absorb any loss resulting from the trade error if the error was caused by our firm. If the error is caused by the Custodian, the Custodian will be responsible for covering all trade error costs. If an investment gain results from the correcting trade and for accounts custodied at the Custodian, the gain will be donated to charity. If an investment gain results from the correcting trade and for accounts custodied at LPL, the gain will be retained by LPL. Please note that our firm will never benefit or profit from trade errors.

ITEM 13 - REVIEW OF ACCOUNTS

Account Reviews and Reviewers – Investment Supervisory Services

The underlying securities within the investment supervisory services are regularly monitored. These reviews will be made by your individual Investment Advisor and are reviewed by the supervisor in charge. An annual review is usually conducted in person or by telephone.

The purpose of all these reviews is to ensure that the investment plan continues to be implemented in a manner which matches your objectives and risk tolerances. More-frequent reviews may be triggered by material changes in variables such as your individual circumstances, or the market, political or economic environment. You are urged to notify us of any changes in your personal circumstances.

Statements and Reports

Trilogy will have the ability to provide clients with Performance/Position summary reports upon request. Reports may also be provided at every client meeting.

The custodian for the individual client's account will also provide clients with an account statement at least quarterly.

You are urged to compare the reports provided by Trilogy against the account statements you receive directly from your account custodian.

Coach clients will receive at least quarterly progress calls from our IARs.

Retirement Plan Services

We will contact you at least once a year to review our Retirement Plan Services. It is important that you discuss any changes in the Plan's demographic information, investment goals, and objectives with your IAR. Plans may receive written reports directly from their IAR based upon the services being provided, including any reports evaluating the performance of Plan investment manager(s) or investments.

ITEM 14 - CLIENT REFERRALS AND OTHER COMPENSATION

Our Firm does not currently compensate any individual promoters consistent with the requirements of applicable law and regulation, including the Advisers Act as well as applicable state/local laws and regulations.

Trilogy has been engaged as a promoter through an agreement(s) with independent registered investment advisers. In such instance, Trilogy acts as a promoter and receives a portion of the fee paid to this unaffiliated advisor. This does not raise the fee paid by the client and the client receives all required disclosure forms disclosing the terms of the promoter relationship at the time the referral is made.

We pay a fee to participate in an online matching program that seeks to match prospective advisory clients with investment advisers. The program, which is operated by third party unaffiliated lead generation firms, provides information about investment advisory firms to persons who have expressed an interest in such firms. The program also provides the name and contact information of such persons to the advisory firms as potential leads. The fee we pay for being provided with potential leads varies based on certain factors, including the size of the person's portfolio, and the fee is payable regardless of whether the prospect becomes our advisory client.

Benefits of Using LPL as Custodian

Our Firm receives support services and/or products from LPL Financial, many of which assist our Firm to better monitor and service program accounts maintained at LPL Financial; however, some of the services and products benefit Trilogy Capital and not client accounts. These support services and/or products may be received without cost, at a discount, and/or at a negotiated rate, and may include the following:

- investment-related research
- pricing information and market data
- software and other technology that provide access to client account data
- compliance and/or practice management-related publications

- attendance at conferences, meetings, and other educational and/or social events
- other products and services used by Trilogy Capital in furtherance of its investment advisory business operations.

These support services are provided to our Firm based on the overall relationship between Trilogy Capital and LPL Financial. It is not the result of soft dollar arrangements or any other express arrangements with LPL Financial that involves the execution of client transactions as a condition to the receipt of services. We will continue to receive the services regardless of the volume of client transactions executed with LPL Financial. Clients do not pay more for services as a result of this arrangement. There is no corresponding commitment made by Trilogy Capital to LPL or any other entity to invest any specific amount or percentage of client assets in any specific securities as a result of the arrangement. However, because Advisor receives these benefits from LPL Financial, there is a potential conflict of interest. The receipt of these products and services presents a financial incentive for Advisor to recommend that its clients use LPL Financials' custodial platform rather than another custodian's platform.

Benefits provided by Schwab

As disclosed under Brokerage Practices, we participate in Schwab's institutional customer program, and we may recommend Schwab to you for custody and brokerage services. There is no direct link between our participation in the program and the investment advice we give to our clients, although we receive economic benefits through our participation in the program that are typically not available to any other independent Investment Advisors participating in the program. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving Advisor participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; research, technology, and practice management products or services provided to us by third-party vendors. Some of the products and services made available by Schwab through the program may benefit us but may not benefit your account. These products or services may assist us in managing and administering your account, including accounts not maintained at Schwab. Other services made available by Schwab are intended to help us manage and further develop our business enterprise. The benefits received by Trilogy or our personnel through participation in the program do not depend on the amount of brokerage transactions directed to Schwab. As part of our fiduciary duties to clients, we endeavor at all times to put the interests of our clients first. You should be aware, however, that the receipt of economic benefits by Trilogy or our related persons in and of itself creates a potential conflict of interest and may indirectly influence our choice of Schwab for custody and brokerage services.

From time to time, we may receive expense reimbursement for travel and/or marketing expenses from distributors of investment and/or insurance products. Travel expense reimbursements are typically a result of attendance at due diligence and/or investment training events hosted by product sponsors. Marketing-expense reimbursements are typically the result of informal expense sharing arrangements in which product sponsors may underwrite costs incurred for marketing such as advertising, publishing and seminar expenses. Although receipt of these travel and marketing expense reimbursements are not predicated upon specific sales quotas, the product sponsor reimbursements are typically made by those sponsors for whom sales have been made or it is anticipated sales will be made.

Other Compensation Arrangements

Trilogy's IARs may be incentivized to join and remain affiliated with Trilogy and to recommend that clients establish accounts with Trilogy through the provision of benefits discussed in Item 10. Trilogy Capital provides these additional benefits to its IARs including but not limited to repayable and forgivable

loans. The receipt of any such compensation creates a financial incentive for your representative to stay employed at Trilogy.

Retirement Plan Services

Various vendors, product providers, distributors and other providers provide non-monetary compensation by paying for expenses related to training and education, including travel expenses, and attaining professional designations. We also receive payments to subsidize our own training programs and certain vendors invite us to participate in conferences, on-line training or receive publications designed to further our skills and knowledge. Some occasionally provide us with gifts, meals and entertainment of reasonable value consistent with industry rules and regulations.

In the event the payments, or non-monetary compensation, are received in connection with or as a result of the Retirement Plan Services, we will disclose such fees to Sponsors in accordance with ERISA and Department of Labor regulations.

Non-cash referral arrangements

Our Firm may be asked to recommend a financial professional, such as an attorney, accountant, or mortgage broker. In such cases, our Firm does not receive any direct compensation in return for any referrals made to individuals or firms in our professional network. Clients must independently evaluate these firms or individuals before engaging in business with them and clients have the right to choose any financial professional to conduct business. Individuals and firms in our financial professional network may refer clients to our Firm. Again, our Firm does not pay any direct compensation in return for any referrals made to our Firm. Our Firm does recognize the fiduciary responsibility to place your interests first and have established policies in this regard to mitigate any conflicts of interest.

ITEM 15 - CUSTODY

Custody, as it applies to investment advisors, has been defined by regulators as having access or control over client funds and/or securities. In other words, custody is not limited to physically holding client funds and securities. If an investment advisor has the ability to access or control client funds or securities, the investment advisor is deemed to have custody and must ensure proper procedures are implemented.

Trilogy is deemed to have custody of client funds and securities whenever Trilogy is given the authority to have fees deducted directly from client accounts. It should be noted that authorization to trade in client accounts is not deemed by regulators to be custody.

For accounts in which Trilogy is deemed to have custody, the firm has established procedures to ensure all client funds and securities are held at a qualified custodian in a separate account for each client under that client's name. Clients or an independent representative of the client will direct, in writing, the establishment of all accounts and therefore are aware of the qualified custodian's name, address and the manner in which the funds or securities are maintained. Finally, account statements are delivered directly from the qualified custodian to each client, or the client's independent representative, at least quarterly. You should carefully review those statements and are urged to compare the statements against reports received from Trilogy. When you have questions about your account statements, you should contact Trilogy or the qualified custodian preparing the statement.

When fees are deducted from an account, Trilogy is responsible for calculating the fee and delivering instructions to the custodian. At the same time Trilogy instructs the custodian to deduct fees from the client's account; Trilogy will send you a notification itemizing the fee. Itemization shall include the formula used to calculate the fee, the amount of assets under management the fee is based on, and the time period covered by the fee.

Standing Letters of Authorization (“SLOA”)

Our firm is also deemed to have custody of clients’ funds or securities when clients have standing authorizations with their custodian to move money from a client’s account to a third-party (“SLOA”) and, under that SLOA, it authorizes us to designate the amount or timing of transfers with the custodian. The SEC has set forth a set of standards intended to protect client assets in such situations, which we follow. We do not have a beneficial interest on any of the accounts we are deemed to have Custody where SLOAs are on file. In addition, account statements reflecting all activity on the account(s), are delivered directly from the qualified custodian to each client or the client’s independent representative, at least quarterly. You should carefully review those statements and are urged to compare the statements against reports received from us. When you have questions about your account statements, you should contact us, your Advisor or the qualified custodian preparing the statement.

Retirement Plan Services

We will not serve as a custodian for Plan assets in connection with the Retirement Plan Services. Sponsor is responsible for selecting the custodian for Plan assets. We may be listed as the contact for the Plan account held at an investment sponsor or custodian. Sponsor for the Plan will complete account paperwork with the outside custodian that will provide the name and address of the custodian. The custodian for Plan assets is responsible for providing the Plan with periodic confirmations and statements. We recommend that Sponsor reviews the statements and reports received directly from the custodian or investment sponsor.

ITEM 16 - INVESTMENT DISCRETION

Prior to engaging Trilogy to provide investment advisory services, you will enter into a written Agreement with us granting the firm the authority to supervise and direct, on an on-going basis, investments in accordance with the client’s investment objective and guidelines. In addition, you will need to execute additional documents required by the Custodian to authorize and enable Trilogy, in its sole discretion, without prior consultation with or ratification by you, to purchase, sell or exchange securities in and for your accounts. We are authorized, in our discretion and without prior consultation with you to: (1) buy, sell, exchange and trade any stocks, bonds or other securities and assets and (2) determine the amount of securities to be bought or sold and (3) place orders with the custodian. Any limitations to such authority will be communicated by you to us in writing.

The limitations on investment and brokerage discretion held by Trilogy for you are:

1. For discretionary clients, we require that we be provided with authority to determine which securities and the amounts of securities to be bought or sold.
2. Any limitations on this discretionary authority shall be included in this written authority statement. You may change/amend these limitations as required. Such amendments shall be submitted in writing.

In some instances, we may not have discretion. We will discuss all transactions with you prior to execution or you will be required to make the trades if in an employer sponsored account.

Retirement Plan Services

When providing Retirement Plan Services described herein, we may exercise discretionary authority or control over the investments specified in the Agreement. We perform these services to the Plan as a fiduciary under ERISA Section 3(21) and investment manager under ERISA Section 3(38). We are legally required to act with the degree of diligence, care and skill that a prudent person rendering similar services would exercise under similar circumstances. This discretionary authority is specifically granted to us by the Sponsor, as specified in the Agreement.

ITEM 17 - VOTING CLIENT SECURITIES

We will not vote proxies under our limited discretionary authority. You are welcome to vote proxies or designate an independent third-party at your own discretion. You designate proxy voting authority in the custodial account documents. You must ensure that proxy materials are sent directly to you or your assigned third-party. We do not take action with respect to any securities or other investments that become the subject of any legal proceedings, including bankruptcies.

Retirement Plan Services

We have no authority or responsibility to vote any security held by the Plan or the related proxies. That authority is reserved by the Sponsor or trustee of the Plan.

ITEM 18 - FINANCIAL INFORMATION

This item is not applicable to this brochure. We do not require or solicit prepayment of more than \$1200 in fees per client, six months or more in advance. Therefore, we are not required to include a balance sheet for our most recent fiscal year. We are not subject to a financial condition that is reasonably likely to impair our ability to meet contractual commitments to clients. Finally, we have not been the subject of a bankruptcy petition at any time.

PRIVACY POLICY

Our Firm collects nonpublic personal information about Clients from information provided on applications or other forms, as well as from information regarding Client transactions with our Firm, our affiliates, or others. In accordance with Regulation S-P, our Firm does not disclose any nonpublic personal information about current or former Clients to third parties, except as permitted or required by law, or as necessary to service Client accounts. Access to Client information is restricted to Firm personnel who require such information to provide investment advisory services. Our Firm maintains physical, electronic, and procedural safeguards designed to protect Client information in compliance with federal standards and Regulation S-P. Our Firm provides a copy of its Privacy Policy to Clients at the time of account opening, upon request, and annually if the Policy is amended.

**FORM ADV PART 2A APPENDIX 1 – WRAP FEE PROGRAM
BROCHURE**

This brochure provides information about the qualifications and business practices of Trilogy Capital, Inc. (“Trilogy”) If you have any questions about the contents of this brochure, please contact us at (714) 843-9977. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority. Trilogy is a Registered Investment Adviser. Registration with the United States Securities and Exchange Commission or any state securities authority does not imply a certain level of skill or training.

Additional information about Trilogy Capital, Inc. is available on the SEC’s website at www.adviserinfo.sec.gov. You can search this site by a unique identifying number, known as an IARD number. The IARD number for Trilogy Capital, Inc. is 281597.

ITEM 2 – MATERIAL CHANGES

Summary of Material Changes

This section of the Brochure will address only those “material changes” that have been incorporated since our last delivery or posting of this document on the SEC’s public disclosure website (IAPD) www.adviserinfo.sec.gov.

The following is a list of changes since our last ADV Annual Amendment filing dated March 24, 2025:

- **Item 4 was amended to reflect** - Our maximum investment advisory fee is 2.00%.

If you would like another copy of this Brochure, please download it from the SEC Website as indicated above or you may contact our Chief Compliance Officer June Adams at (714) 843-9977 x1191 or june.adams@trilogyfs.com. We encourage you to read this document in its entirety.

ITEM 4 – SERVICES, FEES & COMPENSATION

We offer a wrap fee program as described in this Wrap Fee Program Brochure. A wrap fee program is generally considered any arrangement under which clients receive investment advisory services and the execution of client transactions for a specified fee or fees not based upon transactions in their accounts. All our investment management clients will be offered the wrap fee program structure that includes, as a single fee, the securities transaction costs for trading in Client accounts along with the investment advisory fees earned by our firm. Our firm receives a portion of the wrap fee for the services rendered. While traditional Wrap Fee Programs are often rigid, pre-packaged investment programs, our firm customizes its investment strategies individually for its clients. Prior to receiving services through the Program, clients are required to enter into a written agreement with our firm setting forth the relevant terms and conditions of the investment advisory relationship (the “Agreement”).

OUR WRAP ADVISORY SERVICES

We offer discretionary investment management and investment supervisory services for a fee based on a percentage of your assets under management. The discretionary investment management services include investment analysis, allocation of investments, quarterly portfolio statements, financial commentaries, and ongoing monitoring of client portfolios.

We determine your portfolio composition based on your needs, your portfolio restrictions, if any, your financial goals and your risk tolerances. We will work with you to obtain necessary information regarding your financial condition, investment objectives, liquidity requirements, risk tolerance, time horizons, and any restrictions on investing. This information enables us to determine the portfolio best suited for your investment objective and needs.

In performing our services, we shall not be required to verify any information received from you or from other professionals. We may recommend and/or engage the services of other professionals for implementation purposes. You are under no obligation to engage the services of any such recommended professional.

We will rebalance the portfolio, as we deem appropriate, to meet your financial objectives. For discretionary accounts, we will trade these portfolios and rebalance them on a discretionary basis based on our market views and on your investment objectives, using our investment philosophy and process as outlined in Item 8 in this Brochure. We tailor our advisory services to meet the needs of our clients and seek to ensure that client portfolios are managed in a manner consistent with those financial needs and investment objectives.

We do have limited authority to direct the Custodian to deduct our investment advisory fees from your accounts, but only with the appropriate authorization by you on our Discretionary Investment Management Agreement and the Custodian paperwork.

You are advised and are expected to understand that our past performance is not a guarantee of future results. Certain market and economic risks exist that may adversely affect an account’s performance. This could result in capital losses in your account.

There may be times a non-discretionary account relationship exists with our firm. In these circumstances, the client may call in to facilitate a trade on their account. Our Advisors will assist in facilitating the transaction on behalf of the client, but we do not have continuous or supervisory oversight on such accounts and do not bill advisory fees for such relationships. The custodian charges additional

fees such as transaction costs, custodial fees, redemption fees, retirement plan and administrative fees or commissions.

RELATIVE COST OF THE PROGRAM

A wrap fee program allows our clients to pay a specified fee for investment advisory services and the execution of transactions. Clients do not pay brokerage commissions, markups or transaction charges for execution of transactions in addition to the advisory fee, however, most investments trade without transaction fees today, so our payment of these and other incidental custodial related expenses should not be considered a significant factor in determining the relative value of our wrap program. Clients do not pay brokerage commissions, markups or transaction charges for execution of transactions in addition to the advisory fee. By participating in a wrap fee program, you may end up paying more or less than you would through a non-wrap fee program where a lower advisory fee is charged, but trade execution costs are passed directly through to you by the Custodian.

Although clients do not pay a transaction charge for transactions, clients should be aware that Trilogy pays LPL transaction charges for those transactions. The transaction charges paid by Trilogy vary based on the type of transaction (e.g., mutual fund, equity or ETF) and for mutual funds based on whether or not the mutual fund pays 12b-1 fees and/or recordkeeping fees to LPL. Transaction charges paid by Trilogy for equities and ETFs are \$9. For mutual funds, the transaction charges range from \$0 to \$26.50. Because Trilogy pays the transaction charges in SWM II accounts, there is a conflict of interest in cases where the mutual fund is offered at both \$0 and \$26.50. Clients should understand that the cost to Trilogy of transaction charges may be a factor that Trilogy considers when deciding which securities to select and how frequently to place transactions in a SWM II account.

In many instances, LPL makes available mutual funds in a SWM II account that offer various classes of shares, including shares designated as Class A Shares and shares designed for advisory programs, which can be titled, for example, as “Class I,” “institutional,” “investor,” “retail,” “service,” “administrative” or “platform” share classes (“Platform Shares”). The Platform Share class offered for a particular mutual fund in SWM II in many cases will not be the least expensive share class that the mutual fund makes available and was selected by LPL in certain cases because the share class pays LPL compensation for the administrative and recordkeeping services LPL provides to the mutual fund. Client should understand that another financial services firm may offer the same mutual fund at a lower overall cost to the investor than is available through SWM II. In other instances, a mutual fund may offer only Class A Shares, but another similar mutual fund may be available that offers Platform Shares. Class A Shares typically pay LPL a 12b-1 fee for providing shareholder services, distribution, and marketing expenses (“brokerage-related services”) to the mutual funds. Platform Shares generally are not subject to 12b-1 fees. As a result of the different expenses of the mutual fund share classes, it is generally more expensive for a client to own Class A Shares than Platform Shares. An investor in Platform Shares will pay lower fees over time, and keep more of his or her investment returns than an investor who holds Class A Shares of the same fund.

Trilogy has a financial incentive to recommend Class A Shares in cases where both Class A and Platform Shares are available. This is a conflict of interest which might incline Trilogy, consciously or unconsciously, to render advice that is not disinterested. Although the client will not be charged a transaction charge for transactions, Trilogy pays LPL a per transaction charge for mutual fund purchases and sales in the account. Trilogy generally does not pay transaction charges for Class A Share mutual fund transactions accounts, but generally does pay transaction charges for Platform Share mutual fund transactions. The cost to Trilogy of transaction charges generally may be a factor Trilogy considers when deciding which securities to select and whether or not to place transactions in the account.

The lack of transaction charges to Trilogy for Class A Share purchases and sales, together with the fact that Platform Shares generally are less expensive for a client to own, presents a significant conflict of interest between Trilogy and the client. In short, it costs Trilogy less to recommend and select Class A

share mutual funds than Platform shares, but Platform shares will generally outperform Class A mutual fund shares on the basis of internal cost structure alone. Clients should understand this conflict and consider the additional indirect expenses borne as a result of the mutual fund fees when negotiating and discussing with Trilogy the advisory fee for management of an account.

The fees for portfolio management are based on an annual percentage of assets under management and are applied to the account asset value on a pro-rata basis and billed quarterly, in advance based on the value of the Portfolio end of a three-month billing cycle. Fees are assessed on all assets under management, including securities, cash and money market balances. Margin balances are included as part of assets under management for purposes of calculating Trilogy Capital's advisory fee. Additional deposits and withdrawals will be added or subtracted from the assets in a prorated basis to adjust the account fee.

Trilogy Capital's maximum annual advisory fee is for accounts paying a percentage of assets under management is 2.00%. The specific advisory fees are set forth in your Investment Advisory Agreement. Fees may vary based on the size of the account, complexity of the portfolio, extent of activity in the account or other reasons agreed upon by us and you as the client. In certain circumstances, our fees and the timing of the fee payments may be negotiated. Our employees and their family-related accounts are charged a reduced fee for our services.

Unless otherwise instructed by the client, we will aggregate asset amounts in accounts from your same household together to determine the advisory fee for all your accounts. We would do this, for example, where we also service accounts on behalf of your minor children, individual and joint accounts for a spouse, and/or other types of related accounts. This consolidation practice is designed to allow you the benefit of an increased asset total, which could cause your account(s) to be assessed a lower advisory fee.

The independent qualified custodian holding your funds and securities will debit your account directly for the advisory fee and pay that fee to us. You will provide written authorization permitting the fees to be paid directly from your account held by the qualified custodian. Further, the qualified custodian agrees to deliver an account statement quarterly directly to you indicating all the amounts deducted from the account including our advisory fees. At our discretion, our Firm will allow advisory fees to be paid by check as indicated in the Investment Advisory Agreement. You are encouraged to review your account statements for accuracy.

Either Trilogy or you may terminate the management agreement immediately upon written notice to the other party. The management fee will be pro-rated to the date of termination, for the billing period in which the cancellation notice was given and refunded to your account. Upon termination, you are responsible for monitoring the securities in your account, and we will have no further obligation to act or advise with respect to those assets. In the event of client's death or disability, Trilogy will continue management of the account until we are notified of client's death or disability and given alternative instructions by an authorized party.

Periods of Inactivity - Our Firm has a fiduciary duty to provide services consistent with the client's best interest. As part of its investment advisory services, our Firm will review client portfolios on an ongoing basis to determine if any changes are necessary based upon various factors, including, but not limited to, investment performance, fund manager tenure, style drift, and/or a change in the client's investment objective. Based upon these factors, there may be extended periods of time when our Firm determines that changes to a client's portfolio are neither necessary nor prudent. Of course, as indicated below, there can be no assurance that investment decisions made by our Firm will be profitable or equal any specific performance level(s). Clients nonetheless remain subject to the fees described in Item 5 below during periods of account inactivity.

OTHER TYPES OF FEES & EXPENSES

In addition to the advisory fees paid to our Firm, clients also incur certain charges imposed by other third parties, such as broker-dealers, custodians, trust companies, banks and other financial institutions (collectively “Financial Institutions”). These additional charges include custodial fees, charges imposed by a mutual fund or ETF in a client’s account, as disclosed in the fund’s prospectus (e.g., fund management fees and other fund expenses), deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Our brokerage practices are described at length in Item 12, below.

In addition, some mutual fund and/or ETF assets deposited in the account may have been subject to deferred sales charges and 12 (b) (1) fees and other annual expenses. These fees are independent of our fees and should be disclosed by the custodian or contained in each fund’s prospectus. You should also note that fees for comparable services vary and lower fees for comparable services may be available from other sources.

Neither Trilogy, nor any representatives of Trilogy receive any additional compensation for the participation of clients in the wrap fee program. However, compensation received may be more than what would have been received if client paid separately for investment advice, brokerage, and to other services. Therefore, Trilogy may have a financial incentive to recommend the wrap fee program to clients.

Treatment of Mutual Fund Share Classes

Mutual funds often offer multiple share classes with differing internal fee and expense structures. Our firm’s planning methodology does not include the purchase of mutual fund portfolios. However, if mutual funds are transferred to our platform, they may not be the lowest cost share class option. Other instances that may not include the lowest share class include but are not limited to:

- ***Instances in which the custodian that holds your account offers others a share class with a lower internal fee and expense structure than what is available to our Firm at the same custodian:*** In such instances, our Firm will select the lowest cost share class that the custodian makes available. This situation sometimes occurs because the custodian places conditions on the availability of the lower cost share class that our Firm has determined are not appropriate to accept due to additional costs imposed by said conditions.
- ***Instances in which a share class with a lower internal fee and expense structure than the share class you currently hold is available at your custodian, but there are limitations as it relates to share class eligibility, custodian restrictions, or additional fees/taxes that the conversion would trigger:*** Our Firm cannot convert to a share class with a lower internal fee and expense structure if the account is ineligible (e.g., the fund company only allows certain types of registration types to use the share class or the account doesn’t meet the investment minimum for the share class) or if the fund company won’t accept a conversion if the share amount is too small. Our Firm also cannot convert to a lower internal fee and expense structure if the custodian will not allow it (e.g., custodial restrictions). Also, our Firm does not convert to a share class with a lower internal fee and expense structure if the conversion will cause a taxable event or other expense/cost to you that negates the advantage of the lower cost share class.
- ***Instances in which a Model Manager selects a share class for inclusion in a model that is not the lowest cost share class available:*** Our firm uses model managers that build investment portfolios that are designed to meet the needs of our clients and fall within in their risk scores. Our firm does not have the authority to modify or provide input to the selection of the securities in the model.

- **Instances in which you make your own investment selections in a Client-Directed:** Account In such circumstances, our Firm does not screen for the lowest mutual fund share class available

ADMINISTRATIVE SERVICES

Our Firm utilizes a third party and technology platform to support data reconciliation, performance reporting, fee calculation and billing, research, client database maintenance, quarterly performance evaluations, payable reports, web site administration, models, trading platforms, and other functions related to the administrative tasks of managing client accounts. Due to this arrangement, the third-party vendor will have access to client information, but will not serve as an investment advisor to our clients. Trilogy and this third party are non-affiliated companies. This third party charges our Firm an annual fee for each account administered by the third party. The annual fee is paid from the portion of the management fee retained by us.

DUALLY REGISTERED PERSONS

Certain investment adviser representatives of our Firm are also associated with LPL Financial as broker-dealer registered representatives (“Dually Registered Persons”). In their capacity as registered representatives of LPL Financial, certain Dually Registered Persons may earn commissions for the sale of securities or investment products that they recommend for brokerage clients. They do not earn commissions on the sale of securities or investment products recommended or purchased in advisory accounts through Trilogy Capital. Clients have the option of purchasing many of the securities and investment products we make available to you through another broker-dealer or investment adviser. However, when purchasing these securities and investment products away from Trilogy Capital you will not receive the benefit of the advice and other services we provide.

ITEM 5 – ACCOUNT REQUIREMENTS & TYPES OF CLIENTS

Our Firm works with the following types of clients: individuals, high-net-worth individuals, families, small businesses, pensions, foundations, trusts and estates.

Our minimum initial account value is \$5,500; however, we may accept accounts for less than the minimum.

ITEM 6 – PORTFOLIO MANAGER SELECTION & EVALUATION

PORTFOLIO MANAGER SELECTION

Our Firm serves as the portfolio manager for our Wrap Fee Program.

The fee covers transaction costs or commissions resulting from the management of your accounts, however, most investments trade without transaction fees today, so our payment of these and other incidental custodial related expenses should not be considered a significant factor in determining the relative value of our wrap program.

RELATED PERSONS

Our Firm’s investment adviser representatives serve as the portfolio manager for the services under this Wrap Fee Program. We only manage this wrap fee program and we do not act as portfolio manager for any third-party wrap fee programs.

SUPERVISED PERSONS

Our investment adviser representatives serve as the portfolio manager for the Wrap Fee Program described in this Wrap Fee Program Brochure. Please refer to the Items 4 and 8 of the Part 2A Disclosure Brochure for details on the services provided by our Firm. For information related to the background of our supervised persons, please see Items 9 and 11 of the Part 2A Disclosure Brochure.

ADVISORY BUSINESS

Refer to Item 4 of this Wrap Fee Brochure for information about our wrap fee advisory program.

Each client has the opportunity to place reasonable restrictions on the types of investments to be held in the portfolio. Restrictions on investments in certain securities or types of securities may not be possible due to the level of difficulty this would entail in managing the account.

PARTICIPATION IN WRAP FEE PROGRAMS

We offer wrap fee accounts to our clients, which are managed on an individualized basis according to the client's investment objectives, financial goals, risk tolerance, etc.

PERFORMANCE-BASED FEES & SIDE-BY-SIDE MANAGEMENT

We do not charge advisory fees on a share of the capital appreciation of the funds or securities in a client account (so-called performance-based fees), nor engage side by side management.

METHODS OF ANALYSIS

We seek to recommend investment strategies that will give a client a diversified portfolio consistent with the client's investment objective. We do this by analyzing the various securities, investment strategies, and third-party management firms. The goal is to identify a client's risk tolerance, and then find a manager with the maximum expected return for that level of risk.

Our investment strategies and advice may vary depending upon each client's specific financial situation. As such, we determine investments and allocations based upon your predefined objectives, risk tolerance, time horizon, financial horizon, financial information, liquidity needs, and other various suitability factors. Your restrictions and guidelines may affect the composition of your portfolio.

We utilize both fundamental and technical analysis. We gather our information from a broad array of financial resources including financial newspapers, magazines, research prepared by others, corporate rating services, company press releases, annual reports, prospectuses and filings with the Securities and Exchange Commission.

We determine how to allocate assets among the various asset classes based on the client's investment strategy that is chosen, prevailing economic conditions and our determination of where we are in the economic cycle. Potential risks and opportunities are weighed to determine to what degree the portfolio should be invested.

From time-to-time, market conditions may cause your account to vary from the established allocation. To remain consistent with the asset allocation guidelines established, your account is monitored on an ongoing basis and rebalanced to the original allocation, or if deemed beneficial, to a new allocation based on the then prevailing economic conditions and within the guidelines of the chosen investment strategy.

In addition to the rebalancing, overall market conditions and microeconomic factors that affect specific holdings in your account may trigger changes in allocation. Your account may also receive informal reviews more frequently.

Investment Philosophy

Prior to making recommendations, we determine your financial status, needs, time horizon, investment objectives, risk tolerance, and tax status. From this, we create an investor profile and general asset allocation target. While we believe asset allocation is a key factor affecting long-term rate of return, we also believe fundamental research and securities selection are vital. To that end, we select from a narrow, refined list of institutional fund managers known for excellence in their respective disciplines.

We focus primarily on the people, processes, research, consistency, and culture rather than simply recent “high performance” or “track record”.

As much as reasonably possible, we strive to:

- Diversify strategically with non-correlating assets.
- Balance between growth and value styles.
- Diversify globally.
- Rebalance as markets change.
- Manage for tax efficient returns wherever possible.

Portfolios

Trilogy Capital offers strategic portfolios designed to be risk based. The portfolios all have different levels of risk/return trade-off (potential return that can be gained with the amount of risk taken). The risk/return trade-off is based upon the client’s risk tolerance, financial planning needs and/or financial goals. Each of these investment strategies are globally diversified to help reduce specific company, sector, or asset class risk. These core strategies are evaluated on long term performance. This means our Firm is evaluating how portfolios do over three-, five- and ten-year periods as opposed to shorter timeframes. Below are the Portfolio series offered:

- ✓ **Core Portfolio Series:** A family of investment strategies including both strategic and tactically-managed portfolios focused on globally-balanced strategies, intended to span broad market exposure not focused on any one sector or geographic region.
- ✓ **Select Portfolio Series:** A family of investment strategies focused on actively managed portfolios of sector or strategy focused securities. These strategies seek to provide investors with non-correlated returns to the Core series as well as potential alpha as compared to standard benchmark. Additional risk factors are noted below for certain portfolios and potential investors need to meet certain criteria to invest in some of the non-traditional investment portfolios.
- ✓ **Foundation Portfolio Series:** A family of investment strategies focused on portfolios for smaller accounts. These strategies are designed for investors who cannot meet the minimums for the Core series and would still like access to globally-invested, actively – rebalanced strategy.
- ✓ **Continuity Portfolio Series:** An asset management arrangement by which we oversee long-term held assets such as individual bonds and other income-producing strategies. These portfolios will often require less active management due to the buy-and-hold strategy.

While non-traditional investments may offer potential benefits when used in conjunction with traditional stock and bond portfolios there are additional risks to consider. For example, some non-traditional strategies will utilize ETFs with exposure to commodities and the use of leverage to meet their portfolio objectives. As with any investment, it is very important to read prospectus information and work with your advisor to educate yourself on the potential risks and rewards of the strategies that may be considered for inclusion for your portfolio. Refer to Risk of Loss section below for additional information.

Where appropriate, our Firm may utilize interval funds in client portfolios. An interval fund is a non-traditional type of closed-end mutual fund that periodically offers to buy back a percentage of outstanding shares from shareholders. Certain Traded Interval Funds can be purchased by our Firm directly with the Client’s custodian without any prior authorization from the client. In these cases, our Firm will purchase these interval funds on a discretionary basis only when it deems the investments to be suitable for the client. In other cases, certain Non-Traded Interval Funds required the client to execute fund documents in order to invest. In these situations, our Firm will not be able to purchase the

Non-Traded Interval Funds on a discretionary basis. Both Traded and Non-Traded Interval Funds are subject to all of the risks and limitations outlined in the Risk language below.

Where appropriate, our Firm may utilize Structured Notes in client portfolios. Structured Notes are designed to facilitate highly customized risk-return objectives. While structured products come in many different forms, they typically consist of a debt security that is structured to make no interest payments but a principal payment based upon various assets, rates, or formulas. Structured Notes can be purchased by the Firm directly with the Client's custodian without any prior authorization from the client. Our Firm will purchase Structured Notes on a discretionary basis only when it deems the investments to be suitable for the client and will do so without notifying the client in advance of the specific terms and conditions of each note. See additional disclosures in Risk Language below.

Sub-Advisor, Independent Third-Party Manager & Investment Subscription Services

We seek to recommend investment strategies that will give a client a diversified portfolio consistent with the Client's investment objective. We do this by analyzing the various securities, investment strategies, and third-party management firms. The goal is to identify a Client's risk tolerance, and then find a manager with the maximum expected return for that level of risk.

We examine the experience, expertise, investment philosophies and past performance of independent, third-party managers in an attempt to determine if that Manager has demonstrated an ability to invest over a period of time and in different economic conditions. We monitor the Managers' underlying holdings, strategies, concentrations, and leverage as part of our overall periodic risk assessment. Additionally, as part of our due-diligence process, we survey the Managers' compliance and business enterprise risks.

A risk of investing with a third-party Manager who has been successful in the past is that he/she may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in a managers' portfolio, there is also a risk that the Manager may deviate from the stated investment mandate or strategy of the portfolio, making it a less suitable investment for our clients. Moreover, as we do not control the Managers' daily business and compliance operations, we may be unaware of the lack of internal controls necessary to prevent business, regulatory or reputational deficiencies.

Our Firm does engage the services of unaffiliated and independent registered investment advisor(s) ("Signal Providers") to receive buy and sell signals, research, or other information that the Firm uses to manage a particular strategy/portfolio. Such Signal Providers will not act as fiduciaries with respect to any client as they are engaged to provide market-related services to our Firm. In providing individualized investment advice, our Firm will invest a client's assets in accordance with the recommendations of one or more Signal Providers or may invest the account in any manner it deems appropriate based on the client's personal objectives. All fees incurred by the subscription to various Signal Providers are paid by Trilogy (as a percentage of the fees generated within a particular strategy). Thus, a portion of the advisory fee paid by a client to Trilogy may be used to compensate such third-party providers or consultants.

Risk of Loss

Clients must understand that past performance is not indicative of future results. Therefore, current, and prospective clients should never assume that future performance of any specific investment or investment strategy will be profitable. Investing in securities involves risk of loss. Further, depending on the different types of investments there will be varying degrees of risk. Clients and prospective clients should be prepared to bear investment loss including loss of original principal.

Because of the inherent risk of loss associated with investing, our Firm is unable to represent, guarantee, or even imply that our services and methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate you from losses due to market corrections or declines. Investors should be aware that accounts are subject to the following risks:

Market Risk - Even a long-term investment approach cannot guarantee a profit. Economic, political, and issuer-specific events will cause the value of securities to rise or fall. Because the value of investment portfolios will fluctuate, there is the risk that you will lose money and your investment may be worth more or less upon liquidation.

Foreign Securities and Currency Risk - Investments in international and emerging-market securities include exposure to risks such as currency fluctuations, foreign taxes and regulations, and the potential for illiquid markets and political instability.

Capitalization Risk - Small-cap and mid-cap companies may be hindered as a result of limited resources or less diverse products or services, and their stocks have historically been more volatile than the stocks of larger, more established companies.

Interest Rate Risk - In a rising rate environment, the value of fixed-income securities generally declines, and the value of equity securities may be adversely affected.

Credit Risk - Credit risk is the risk that the issuer of a security may be unable to make interest payments and/or repay principal when due. A downgrade to an issuer's credit rating or a perceived change in an issuer's financial strength may affect a security's value and, thus, impact the fund's performance.

Securities Lending Risk - Securities lending involves the risk that the fund loses money because the borrower fails to return the securities in a timely manner or at all. The fund could also lose money if the value of the collateral provided for loaned securities, or the value of the investments made with the cash collateral, falls. These events could also trigger adverse tax consequences for the fund.

Exchange-Traded Funds - ETFs face market-trading risks, including the potential lack of an active market for shares, losses from trading in the secondary markets and disruption in the creation/redemption process of the ETF. Any of these factors may lead to the fund's shares trading at either a premium or a discount to its "net asset value."

Performance of Underlying Managers - We select the mutual funds and ETFs in the asset allocation portfolios. However, we depend on the manager of such funds to select individual investments in accordance with their stated investment strategy.

Liquidity Risk - Liquidity risk exists when particular investments would be difficult to purchase or sell, possibly preventing clients from selling such securities at an advantageous time or price.

Derivative Risk - Derivatives are securities, such as futures contracts, whose value is derived from that of other securities or indices. Derivatives can be used for hedging (attempting to reduce risk by offsetting one investment position with another) or non-hedging purposes. Hedging with derivatives may increase expenses, and there is no guarantee that a hedging strategy will achieve the desired results.

Bond Mutual Funds and Laddered Individual Bonds - A laddered individual bond portfolio is comprised of individual bonds where each bond or series of bonds features strategically staggered

maturity dates at regular intervals. As each bond or series of bonds matures, proceeds are used to purchase new bonds to continue the bond ladder, or they are used as income. Both laddered individual bonds held in a laddered bond portfolio and bond funds generally have higher risks than money market funds, largely because they typically pursue strategies aimed at producing higher returns. Unlike money market funds, the SEC's rules do not restrict bond funds and laddered individual bonds to high quality or short-term investments. Because there are many different types of bonds, bond funds and laddered individual bonds, they can vary dramatically in their risks and rewards. Some of the risks associated with bond funds and laddered individual bonds include:

Interest Rate Risk - Interest rate risk refers to the risk that the market value of bonds will go down when interest rates go up. Because of this risk, investors can lose money in any bond fund or laddered individual bond portfolio, if a bond were sold before its maturity date. Interest rate risk applies to investments in insured bonds and U.S. Treasury Bonds. Longer-term bonds and bond funds tend to have higher interest rate risks.

Credit Risk - Credit risk refers to the risk that companies or other issuers may fail to pay their debts (including the debt owed to holders of their bonds). Consequently, this affects individual bond ladders, mutual funds, and exchange-traded funds (ETFs) that hold these bonds. Credit risk is less of a factor in investments including insured bonds or U.S. Treasury Bonds. By contrast, those that invest in the bonds of companies with poor credit ratings generally will be subject to higher risk.

Prepayment Risk - Issuers may choose to pay off debt earlier than the stated maturity date on a bond. For example, if interest rates fall, a bond issuer may decide to "retire" its debt and issue new bonds that pay a lower rate. When this happens, proceeds from the sale of individual bonds or a bond fund may not be able to be reinvested in an investment with as high a return or yield.

Cybersecurity Risk - In addition to the Material Investment Risks listed above, investing involves various operational and "cybersecurity" risks. These risks include both intentional and unintentional events at our firm or one of its third-party counterparties or service providers, which may result in a loss or corruption of data, result in the unauthorized release or other misuse of confidential information, and generally compromise our Firm's ability to conduct its business. A cybersecurity breach may also result in a third-party obtaining unauthorized access to our clients' information, including social security numbers, home addresses, account numbers, account balances, and account holdings. Our Firm has established business continuity plans and risk management systems designed to reduce the risks associated with cybersecurity breaches. However, there are inherent limitations in these plans and systems, including those certain risks may not have been identified, in large part because different or unknown threats may emerge in the future. As such, there is no guarantee that such efforts will succeed, especially because our Firm does not directly control the cybersecurity systems of our third-party service providers. There is also a risk that cybersecurity breaches may not be detected.

Responsible Investing and ESG Risk - Clients utilizing responsible investing strategies and environment, social responsibility, and corporate governance (ESG) factors may underperform strategies which do not utilize responsible investing and ESG considerations. Responsible investing and ESG strategies may operate by either excluding the investments of certain issuers or by selecting investments based on their compliance with factors such as ESG. This strategy may exclude certain sectors or industries from a client's portfolio, potentially negatively affecting the client's investment performance if the excluded sector or industry outperforms. Responsible investing and ESG are subjective by nature, and our Firm may rely

on analysis and 'scores' provided by third parties in determining whether an issuer meets our Firm's standards for inclusion or exclusion. A client's perception may differ from our Firm or a third parties on how to judge an issuers adherence to responsible investing principles.

Commodities Risk – Our Firm's use of commodities in a client's portfolio would be limited to ETF's and only investments approved on our recommended Custodian's platform. Investments in commodity-linked investments, including commodity derivatives, may subject the Account to greater volatility than investments in traditional securities. To the extent a strategy concentrates assets in a particular sector of the commodities market (such as oil, metal, Bitcoin, environmental or agricultural products), it may be more susceptible to risks associated with those sectors. The prices for commodities in those sectors may fluctuate widely due to factors such as supply and demand disruptions in major producing or consuming regions, and governmental regulatory policies. Further, ability to invest in certain commodity interests may be limited due to applicable regulations pertaining to position limits.

Option Risk- Variable degree of risk. Transactions in options carry a high degree of risk. Purchasers and sellers of options should familiarize themselves with the type of option (i.e., put or call) which they contemplate trading and the associated risks. Traders of options should calculate the extent to which the value of the options must increase for the position to become profitable, taking into account the premium and all transaction costs.

- The purchaser of options may offset or exercise the options or allow the options to expire. The exercise of an option results either in a cash settlement or in the purchaser acquiring or delivering the underlying interest. If the option is on a future, the purchaser will acquire a futures position with associated liabilities for margin (see the section on Futures below). If the purchased options expire worthless, the purchaser will suffer a total loss of the investment. In purchasing deep out-of-the-money options, the purchaser should be aware that the chance of such options becoming profitable ordinarily is remote.
- Selling ("writing" or "granting") an option generally entails considerably greater risk than purchasing options. Although the premium received by the seller is fixed, the seller may sustain a loss well in excess of that amount. The seller will be liable for additional margin to maintain the position if the market moves unfavorably. The seller will also be exposed to the risk of the purchaser exercising the option and the seller being obligated to either settle the option in cash or to acquire or deliver the underlying interest. If the option is on a future, the seller will acquire a position in a future with associated liabilities for margin (see the section on Futures below). If the option is "covered" by the seller holding a corresponding position in the underlying interest or a future or another option, the risk may be reduced. If the option is not covered, the risk of loss can be unlimited.
- Certain exchanges in some jurisdictions permit deferred payment of the option premium, exposing the purchaser to liability for margin payments not exceeding the amount of the premium. The purchaser is still subject to the risk of losing the premium and transaction costs. When the option is exercised or expires, the purchaser is responsible for any unpaid premium outstanding at that time.

Interval Fund Risk - Where suitable, our Firm may utilize interval funds in client portfolios. An interval fund is a non-traditional type of closed-end mutual fund that periodically offers to buy back a percentage of outstanding shares from shareholders. Investments in an interval fund involve additional risk, including lack of liquidity and restrictions on withdrawals at the fund sponsor's sole discretion. During any time periods outside of the specified repurchase offer window(s), investors will be unable to sell their shares of the interval fund. There is no assurance that an investor will be able to tender shares when or in the amount desired. There can also be situations where an interval fund has a limited amount of capacity to repurchase shares and may not be able to fulfill all purchase

orders. In addition, the eventual sale price for the interval fund could be less than the interval fund value on the date that the sale was requested. While an interval fund periodically offers to repurchase a portion of its securities, there is no guarantee that investors may sell their shares at any given time or in the desired amount. As interval funds can expose investors to liquidity risk, investors should consider interval fund shares to be an illiquid investment. Typically, the interval funds are not listed on any securities exchange and are not publicly traded. Thus, there is no secondary market for the fund's shares. Because these types of investments involve certain additional risk, these funds will only be utilized when consistent with a client's investment objectives, individual situation, suitability, tolerance for risk and liquidity needs. Investment should be avoided where an investor has a short-term investing horizon and/or cannot bear the loss of some, or all, of the investment. The fund sponsor determines the fund price which investors will transact at based solely on its internal policies and procedures for valuing the non-traded assets within the fund. There can be no assurance that an interval fund investment will prove profitable or successful. In light of these enhanced risks, a client may direct our Firm, in writing, not to employ any or all such strategies for the client's account. Certain Traded Interval Funds can be purchased by our Firm directly with the Client's custodian without any prior authorization from the client. In these cases, our Firm will purchase these interval funds on a discretionary basis only when it deems the investments to be suitable for the client. In other cases, certain Non-Traded Interval Funds required the client to execute fund documents in order to invest. In these situations, our Firm will not be able to purchase the Non-Traded Interval Funds on a discretionary basis. Both Traded and Non-Traded Interval Funds are subject to all of the risks and limitations outlined above.

Energy Sector Risk - The profitability of companies in the energy sector is related to worldwide energy prices, exploration, and production spending. Such companies also are subject to risks of changes in exchange rates, government regulation, world events, depletion of resources and economic conditions, as well as market, economic and political risks of the countries where energy companies are located or do business. Oil and gas exploration and production can be significantly affected by natural disasters. Oil exploration and production companies may be adversely affected by changes in exchange rates, interest rates, government regulation, world events, and economic conditions. Oil exploration and production companies may be at risk for environmental damage claims.

Artificial Intelligence and Machine Learning - Certain service providers utilized by the Firm to service client accounts have artificial intelligence components, such as our client relationship management system that utilizes artificial intelligence to summarize client meeting notes. The use of artificial intelligence and machine learning includes increased risk of data inaccuracies and security vulnerabilities. Due to the rapid advancement of machine learning technologies, future risks related to artificial intelligence are unpredictable. As a measure to mitigate these risks to our clients, our Firm performs periodic due diligence of our service providers for assurance that the service providers have appropriate controls in place to protect our clients' information and to limit data inaccuracies when artificial intelligence is used by the service provider.

Use of Margin: There may be times when a client decides to use margin in their account. Use of margin in an investment advisory account can increase a client's asset-based advisory fee. If margin is used to purchase additional securities, for instance, the total value of eligible account assets (to which the Firm advisory fee is applied) will also increase. Notably, the opportunity to increase assets via margin debt presents a potential conflict of interest for Trilogy Capital. We recognize that margin debt is not suitable for all investors. It is our practice to recommend that clients utilize such financing in a prudent manner (if at all). Buying securities on margin also subjects clients to additional costs and risks that should be carefully considered before opening a margin account.

VOTING CLIENT SECURITIES

We will not vote proxies on your behalf. You are welcome to vote proxies or designate an independent third-party at your own discretion. You designate proxy voting authority in the custodial account documents. You must ensure that proxy materials are sent directly to you or your assigned third party. We do not act with respect to any securities or other investments that become the subject of any legal proceedings, including bankruptcies. Clients can contact our office with questions about a particular proxy solicitation by phone at (714) 843-9977.

ITEM 7 – CLIENT INFORMATION PROVIDED TO PORTFOLIO MANAGER(S)

Our Firm is required to describe the type and frequency of the information it communicates to external managers that may be involved in managing its clients' investment portfolios. Trilogy serves as the sole portfolio manager under this Wrap Fee Program and, as such, we have no information to disclose regarding this Item.

ITEM 8 – CLIENT CONTACT WITH PORTFOLIO MANAGER(S)

Our Firm does not place restrictions on the client's ability to contact and consult their financial advisor. As the portfolio manager, clients are free to contact us at any time.

ITEM 9 – ADDITIONAL INFORMATION

All the information disclosed in Item 9 is for Wrap Fee Clients.

DISCIPLINARY INFORMATION

We do not have any legal, financial or other "disciplinary" item to report. No management persons listed on Schedule A/B of the ADV Part 1 have been subject to any criminal or civil actions, administrative proceedings, or self-regulatory organization (SRO) proceedings.

FINANCIAL INDUSTRY ACTIVITIES & AFFILIATIONS

Insurance

An affiliated entity, Trilogy Financial, doing business as Trilogy Protect, is a licensed insurance agency with various States. Investment Advisor Representatives ("IAR") of Trilogy may act as agents appointed with various life, disability, or other insurance companies, receive commissions, trails, or other compensation from the respective product sponsors and/or as a result of effecting insurance transactions for clients. However, clients should note that they are under no obligation to purchase any insurance products through Trilogy or its IAR. Please note that IARs spend less than 10% of their time on business relating to Insurance.

BROKER DEALER

Trilogy is not a broker/dealer, but some of our Investment Advisor Representatives ("IAR") are registered representatives of LPL Financial LLC ("LPL"), a full-service broker-dealer, member FINRA/SIPC, which compensates them for effecting securities transactions. When placing securities transactions through LPL in their capacity as registered representatives, they will earn sales commissions. Because some of the IARs are dually registered representatives and agents of LPL and Trilogy, LPL has certain supervisory and administrative duties pursuant to the requirements of FINRA Conduct Rule 3280. LPL and Trilogy are not affiliated companies. Some of the IARs of Trilogy spend a portion their time in connection with broker/dealer activities.

As a broker-dealer, LPL engages in a broad range of activities normally associated with securities brokerage firms. Pursuant to the investment advice given by Trilogy or its IARs, investments in securities may be recommended for clients. If LPL is selected as the broker-dealer, LPL and its

registered representatives, including some of the IARs of Trilogy, may individually receive commissions for executing securities transactions.

You are advised that if LPL is selected as the broker-dealer, the transaction charges may be higher or lower than the charges you may pay if the transactions were executed at other broker/dealers. You should note, however, that you are under no obligation to purchase securities through IARs of Trilogy or LPL.

Moreover, you should note that under the rules and regulations of FINRA, LPL has an obligation to maintain certain client records and perform other functions regarding certain aspects of the investment advisory activities of its registered representatives. These obligations require LPL to coordinate with and have the cooperation of its registered representatives that operate as, or are otherwise associated with, investment advisors other than LPL. Accordingly, LPL may limit the use of certain custodial and brokerage arrangements available to clients of Trilogy and LPL may collect, as paying agent of Trilogy, the investment advisory fee remitted to Trilogy by the account custodian. LPL may retain a portion of the investment advisory fee you pay, as a charge for the functions it performs, and such portion may be further re-allowed to other registered representatives of LPL. The charge will not increase the advisory fee you have agreed to pay Trilogy.

Some of the IARs of Trilogy, in their capacity as registered representatives of LPL, or as agents appointed with various life, disability or other insurance companies, receive insurance commissions, fee trails, or other compensation from the respective product sponsors and/or as a result of effecting securities transactions for clients. However, clients should note that they are under no obligation to purchase any investment products through Trilogy's representatives.

As a result of the relationship with LPL, LPL Financial may have access to certain confidential information (e.g., financial information, investment objectives, transactions and holdings) about Trilogy Capital's clients, even if client does not establish any account through LPL. If you would like a copy of the LPL Financial privacy policy, please contact our firm's CCO. The contact information for the CCO can be found on the Cover Page of this Brochure.

Please refer to Brokerage Services in this Brochure for a discussion of the benefits Trilogy Capital may receive from LPL Financial and the conflicts of interest associated with receipt of such benefits.

Benefits to Investment Advisor Representatives

Trilogy Capital and its related person Trilogy Financial provide various benefits to Registered Persons (IARs) that are new to the Trilogy Capital to assist the Advisor with the costs associated with transitioning his or her business to the Trilogy Capital. The amount of the benefits are in some cases significant in relation to the overall revenue earned or compensation received by the IAR at his/her prior firm. Such payments are generally based on the size of the IAR's business established at his/her prior firm and/or assets under management with Trilogy Capital. Please refer to the relevant Part 2B brochure supplement for more information about the specific benefits your IAR receives.

These benefits are provided to persons of Trilogy in their capacity as IARs of Trilogy. However, the receipt of benefits by such IARs creates conflicts of interest relating to Trilogy's advisory business because it creates a financial incentive for Trilogy's IARs to recommend that its clients maintain their accounts with Trilogy. In certain instances, the receipt of such benefits is dependent on as IAR maintaining its clients' assets with Trilogy therefore Trilogy has an incentive to recommend that clients maintain their account with Trilogy in order to generate such benefits.

Trilogy attempts to mitigate these conflicts of interest by evaluating and recommending that clients use Trilogy's services based on the benefits that such services provide to our clients, rather than the benefits

earned by any Trilogy Capital IAR. Trilogy and its IARs will always act in the best interest of their clients when recommending advisory services.

Sub-Advisor Relationships

As described in 2A Item 4 – Advisory Business and Item 5 – Fees and Compensation, Trilogy has formed relationships with independent, investment advisors to serve as sub-advisors. When we utilize a third-party Manager, you need to know that our firm will pay the Manager a portion of the total fee billed to the Client.

Promoter Arrangements

Trilogy has promoter agreements with unaffiliated registered investment advisory firms, where Trilogy is a promoter for the named firm. Such a promoter arrangement, if any, is on a per client basis, and the client along with Trilogy and the unaffiliated firm executes a disclosure notifying them of the particulars of such an arrangement.

Trilogy promoter agreements are with firms only and does not have any agreements and arrangements with individuals whether licensed or otherwise.

Outside Business Activities

Investment Advisory Representatives (“IAR”) of Trilogy Capital have properly disclosed outside business activities where they act in the capacity of an attorney, insurance agent, registered representative or mortgage broker. At no time should any IAR of Trilogy Capital discuss or provide these services while acting in the capacity as an IAR of Trilogy Capital.

OTHER AFFILIATIONS

Additionally, management personnel of Trilogy may engage in outside business activities. As such, these individuals can receive separate, yet customary commission compensation resulting from implementing product transactions on behalf of investment advisory Clients. Clients are not under any obligation to engage these individuals when considering implementation of these outside recommendations. The implementation of any or all recommendations is solely at the discretion of the Client.

Our Firm does not have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading adviser, or an associated person of the foregoing entities.

Neither our firm nor any of its management persons are registered or have an application pending to register as a broker-dealer.

Clients should be aware that the ability to receive additional compensation by our Firm and its management persons or employees creates conflicts of interest that impair the objectivity of the Firm and these individuals when making advisory recommendations. Our Firm endeavors at all times to put the interest of its clients first as part of our fiduciary duty as a registered investment adviser; we take the following steps, among others to address this conflict:

- we disclose to clients the existence of all material conflicts of interest, including the potential for the Firm and our employees to earn compensation from advisory clients in addition to the Firm's advisory fees.
- we disclose to clients that they have the right to decide to purchase recommended investment products from our employees.

- we collect, maintain and document accurate, complete and relevant client background information, including the client's financial goals, objectives, and liquidity needs.
- the Firm conducts regular reviews of each client advisory account to verify that all recommendations made to a client are in the best interest of the client's needs and circumstances.
- we require that our employees seek prior approval of any outside employment activity so that we may ensure that any conflicts of interests in such activities are properly addressed.
- we periodically monitor these outside employment activities to verify that any conflicts of interest continue to be properly addressed by the Firm; and
- we educate our employees regarding the responsibilities of a fiduciary, including the need for having a reasonable and independent basis for the investment advice provided to clients.

BROKERAGE PRACTICES

We generally recommend that clients utilize the custody, brokerage and clearing services of LPL Financial ("LPL") for investment management accounts. We may recommend other custodians beside LPL based on your needs and the services offered (defined in this document as "Custodian(s)").

We recommend that you establish accounts with these Custodians to maintain custody of your assets and to effect trades for your accounts. Some of the products, services and other benefits provided by our Custodians benefit us and may not benefit you or your account. Our recommendation/requirement that you place assets with one of these Custodians may be based in part on benefits they provide us, and not solely on the nature, cost or quality of custody and execution services provided by the custodian. The Custodian we utilize makes available to us other products and services that benefit us but may not benefit your accounts in every case.

LPL Financial ("LPL") provides various benefits and payments to registered investment advisers that are new to the LPL custodial platform to assist the firm with the costs associated with starting a Registered Investment Advisory firm and transitioning the business to LPL. Some of the other LPL products and services assist us in managing and administering your accounts. These include software and technology that provide access to client account data (such as trade confirmations and account statements), facilitate trade execution (and allocation of aggregated trade orders for multiple client accounts), provide research, pricing information and other market data, facilitate payment of our fees from your account, and assist with back-office functions, recordkeeping and reporting.

We are independently owned and operated and not affiliated with these Custodians. They provide us with access to their institutional trading and custody services. These services include brokerage, custody, research and access to mutual funds and other investments that are otherwise generally available only to institutional investors.

You have the right to not act upon any recommendations, and if you elect to act upon any recommendations, you have the right to not place the transactions through any broker/dealer we recommend. Our recommendation is generally based on the broker's cost and fees, skills, reputation, dependability and compatibility with the client. You may be able to obtain lower commissions and fees from other brokers and the value of products, research and services given to us is not a factor in determining the selection of broker/dealer or the reasonableness of their commissions.

We place trades for your account subject to our duty to seek best execution and other fiduciary duties. You may be able to obtain lower commissions and fees from other brokers and the value of products, research and services given to us is not a factor in determining the selection of broker/dealer or the reasonableness of their commissions. The Custodian's execution quality may be different than other broker-dealers.

Recommendation of LPL Financial

Trilogy Capital will generally recommend and request that clients establish a brokerage account with LPL Financial to maintain custody of clients' assets and to effect trades for their accounts. LPL Financial

provides brokerage and custodial services to independent investment advisory firms, including Trilogy Capital. For Trilogy Capital's accounts custodied at LPL Financial, LPL Financial generally is compensated by clients through commissions, trails, or other transaction-based fees for trades that are executed through LPL Financial or that settle into LPL Financial accounts. For IRA accounts, LPL Financial generally charges account maintenance fees. In addition, LPL Financial also charges clients miscellaneous fees and charges, such as account transfer fees. LPL Financial charges Trilogy Capital an asset-based administration fee for administrative services provided by LPL Financial. Such administration fees are not directly borne by clients, but may be taken into account when Trilogy Capital negotiates its advisory fee with clients.

While LPL Financial does not participate in, or influence the formulation of, the investment advice Trilogy Capital provides, certain supervised persons of Trilogy Capital are Dually Registered Persons. Dually Registered Persons are restricted by certain FINRA rules and policies from maintaining client accounts at another custodian or executing client transactions in such client accounts through any broker-dealer or custodian that is not approved by LPL Financial. As a result, the use of other trading platforms must be approved not only by Trilogy Capital, but also by LPL Financial.

Clients should also be aware that for accounts where LPL Financial serves as the custodian, Trilogy Capital is limited to offering services and investment vehicles that are approved by LPL Financial, and may be prohibited from offering services and investment vehicles that may be available through other broker-dealers and custodians, some of which may be more suitable for a client's portfolio than the services and investment vehicles offered through LPL Financial.

Clients should understand that not all investment advisers require, request or recommend that clients custody their accounts and trade through specific broker-dealers.

Clients should also understand that LPL Financial is responsible under FINRA rules for supervising certain business activities of Trilogy Capital and its Dually Registered Persons that are conducted through broker-dealers and custodians other than LPL Financial. LPL Financial charges a fee for its oversight of activities conducted through these other broker-dealers and custodians. This arrangement presents a conflict of interest because Trilogy Capital has a financial incentive to recommend that you maintain your account with LPL Financial rather than with another broker-dealer or custodian to avoid incurring the oversight fee.

Benefits Received by Trilogy Capital Personnel

LPL Financial makes available to Trilogy Capital various products and services designed to assist Trilogy Capital in managing and administering client accounts. Many of these products and services may be used to service all or a substantial number of Trilogy Capital's accounts, including accounts not held with LPL Financial. These include software and other technology that provide access to client account data (such as trade confirmation and account statements); facilitate trade execution (and aggregation and allocation of trade orders for multiple client accounts); provide research, pricing information and other market data; facilitate payment of Trilogy Capital's fees from its clients' accounts; and assist with back-office functions; recordkeeping and client reporting.

LPL Financial also makes available to Trilogy Capital other services intended to help Trilogy Capital manage and further develop its business. Some of these services assist Trilogy Capital to better monitor and service program accounts maintained at LPL Financial, however, many of these services benefit only Trilogy Capital, for example, services that assist Trilogy Capital in growing its business. These support services and/or products may be provided without cost, at a discount, and/or at a negotiated rate, and include practice management-related publications; consulting services; attendance at conferences and seminars, meetings, and other educational and/or social events; marketing support;

and other products and services used by Trilogy Capital in furtherance of the operation and development of its investment advisory business.

Where such services are provided by a third party vendor, LPL Financial will either make a payment to Trilogy Capital to cover the cost of such services, reimburse Trilogy Capital for the cost associated with the services, or pay the third party vendor directly on behalf of Trilogy Capital.

The products and services described above are provided to Trilogy Capital as part of its overall relationship with LPL Financial. While as a fiduciary Trilogy Capital endeavors to act in its clients' best interests, the receipt of these benefits creates a conflict of interest because Trilogy Capital's [requirement, request or recommendation] that clients custody their assets at LPL Financial is based in part on the benefit to Trilogy Capital of the availability of the foregoing products and services and not solely on the nature, cost or quality of custody or brokerage services provided by LPL Financial. Trilogy Capital's receipt of some of these benefits may be based on the amount of advisory assets custodied on the LPL Financial platform.

Transition Assistance Benefits

LPL Financial provides various benefits and payments to Dually Registered Persons that are new to the LPL Financial platform to assist the representative with the costs (including foregone revenues during account transition) associated with transitioning his or her business to the LPL Financial platform (collectively referred to as "Transition Assistance"). The proceeds of such Transition Assistance payments are intended to be used for a variety of purposes, including but not necessarily limited to, providing working capital to assist in funding the Dually Registered Person's business, satisfying any outstanding debt owed to the Dually Registered Person's prior firm, offsetting account transfer fees (ACATs) payable to LPL Financial as a result of the Dually Registered Person's clients transitioning to LPL Financials' custodial platform, technology set-up fees, marketing and mailing costs, stationary and licensure transfer fees, moving expenses, office space expenses, staffing support and termination fees associated with moving accounts.

The amount of the Transition Assistance payments are often significant in relation to the overall revenue earned or compensation received by the Dually Registered Person at his/her prior firm. Such payments are generally based on the size of the Dually Registered Person's business established at his/her prior firm and/or assets under custody on the LPL Financial. Please refer to the relevant Part 2B brochure supplement for more information about the specific Transition Payments your representative receives.

Transition Assistance payments and other benefits are provided to associated persons of Trilogy Capital in their capacity as registered representatives of LPL Financial. However, the receipt of Transition Assistance by such Dually Registered Persons creates conflicts of interest relating to Trilogy Capital's advisory business because it creates a financial incentive for Trilogy Capital's representatives to recommend that its clients maintain their accounts with LPL Financial. In certain instances, the receipt of such benefits is dependent on a Dually Registered Person maintaining its clients' assets with LPL Financial and therefore Trilogy Capital has an incentive to recommend that clients maintain their account with LPL Financial in order to generate such benefits.

Trilogy Capital attempts to mitigate these conflicts of interest by evaluating and recommending that clients use LPL Financial's services based on the benefits that such services provide to our clients, rather than the Transition Assistance earned by any particular Dually Registered Person. Trilogy Capital considers LPL Financial's availability of investment research and tools that assist us in making investment decisions and the competitiveness of the price of those services (commission rates, margin rates, other fees, etc. and the willingness to negotiate them when recommending or requiring that clients maintain accounts with LPL Financial. However, clients should be aware of this conflict and take it into

consideration in making a decision whether to custody their assets in a brokerage account at LPL Financial.

While as a fiduciary, we endeavor to act in your best interest, our recommendation that you maintain your assets in accounts at our recommended custodians may be based in part on the benefit to us or the availability of some of the foregoing products and services and not solely on the nature, cost or quality of custody and brokerage services provided by the custodian, which may create a conflict of interest. IARs endeavor at all times to put the interest of our clients first as a part of their fiduciary duty.

Our Firm annually reviews the relationship between our Custodian, Trilogy and the client in order to determine if the custodial relationship is in the best interest of the client.

AGGREGATION AND ALLOCATION OF TRANSACTIONS

We may aggregate transactions if we believe that aggregation is consistent with the duty to seek best execution for our clients and is consistent with the disclosures made to clients and terms defined in the client Investment Advisory Agreement. No advisory client will be favored over any other client, and each account that participates in an aggregated order will participate at the average share price (per custodian) for all transactions in that security on a given business day. We will aggregate trades for ourselves or our associated persons with your trades, providing that the following conditions are met:

- Our policy for the aggregation of transactions shall be fully disclosed separately to our existing clients (if any) and the broker/dealer(s) through which such transactions will be placed.
- We will not aggregate transactions unless we believe that aggregation is consistent with our duty to seek the best execution (which includes the duty to seek best price) for you and is consistent with the terms of our Investment Advisory Agreement with you for which trades are being aggregated.
- No advisory client will be favored over any other client; each client that participates in an aggregated order will participate at the average share price for all our transactions in a given security on a given business day, with transaction costs based on each client's participation in the transaction.
- We will prepare a written statement ("Allocation Statement") specifying the participating client accounts and how to allocate the order among those clients.
- If the aggregated order is filled in its entirety, it will be allocated among clients in accordance with the allocation statement; if the order is partially filled, the accounts that did not receive the previous trade's positions should be "first in line" to receive the next allocation.
- Notwithstanding the foregoing, the order may be allocated on a basis different from that specified in the Allocation Statement if all client accounts receive fair and equitable treatment and the reason for difference of allocation is explained in writing and is reviewed by our compliance officer. Our books and records will separately reflect, for each client account, the orders of which aggregated, the securities held by, and bought for that account.
- We will receive no additional compensation or remuneration of any kind as a result of the proposed aggregation; and
- Individual advice and treatment will be accorded to each advisory client.

BROKERAGE FOR CLIENT REFERRALS

Our Firm does not receive client referrals from any Custodian or third party in exchange for using that broker-dealer or third party.

TRADE ERRORS

We have implemented procedures designed to prevent trade errors; however, trade errors in client accounts cannot always be avoided. Consistent with our fiduciary duty, it is our policy to correct trade errors in a manner that is in the best interest of the client. In cases where the client causes the trade error, the client will be responsible for any loss resulting from the correction. Depending on the specific circumstances of the trade error, the client may not be able to receive any gains generated as a result

of the error correction. In all situations where the client does not cause the trade error, the client will be made whole, and we will absorb any loss resulting from the trade error if the error was caused by the firm. If the error is caused by the Custodian, the Custodian will be responsible for covering all trade error costs. If an investment gain results from the correcting trade, the gain will be held in an account to offset future potential trade error losses within the same calendar year. We will take any remaining monetary positive balance in the trade error account of that calendar year and donate those funds to a 501c3 of choice. We will never benefit or profit from trade errors.

DIRECTED BROKERAGE

We do not routinely recommend, request or require that you direct us to execute transaction through a specified broker dealer. Additionally, we do not permit you to direct brokerage. We place trades for your account subject to our duty to seek best execution and other fiduciary duties.

CODE OF ETHICS, PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS & PERSONAL TRADING

Our Firm and persons associated with us are allowed to invest for their own accounts, or to have a financial investment in the same securities or other investments that we recommend or acquire for your account and may engage in transactions that are the same as or different than transactions recommended to or made for your account. This creates a conflict of interest. We recognize the fiduciary responsibility to act in your best interest and have established polices to mitigate conflicts of interest.

We have developed and implemented a Code of Ethics that sets forth standards of conduct expected of our advisory personnel to mitigate this conflict of interest. The Code of Ethics addresses, among other things, personal trading, gifts, and the prohibition against the use of inside information.

The Code of Ethics is designed to protect our clients to detect and deter misconduct, educate personnel regarding the Firm's expectations and laws governing their conduct, remind personnel that they are in a position of trust and must act with complete propriety at all times, protect the reputation of Trilogy , safeguard against the violation of the securities laws, and establish procedures for personnel to follow so that we may determine whether their personnel are complying with the Firm's ethical principles.

We have established the following restrictions in order to ensure our Firm's fiduciary responsibilities:

- No supervised employee of Trilogy shall prefer his or her own interest to that of the advisory client. Trades for supervised employees are traded alongside client accounts.
- We maintain a list of all securities holdings of anyone associated with this advisory practice with access to advisory recommendations. These holdings are reviewed on a regular basis by an appropriate officer/individual of Trilogy.
- We emphasize the unrestricted right of the client to decline implementation of any advice rendered, except in situations where we are granted discretionary authority of the client's account.
- We require that all supervised employees must act in accordance with all applicable Federal and State regulations governing registered investment advisory practices.
- Any supervised employee not in observance of the above may be subject to termination.

None of our associated persons may affect for himself/herself or for accounts in which he/she holds a beneficial interest, any transactions in a security which is being actively recommended to any of our clients, unless in accordance with the Firm's procedures.

You may request a complete copy of our Code by contacting us at the address, telephone, or email on the cover page of this Part 2; ATTN: June Adams, Chief Compliance Officer.

ACCOUNT REVIEWS AND REVIEWERS – INVESTMENT SUPERVISORY SERVICES

Our Investment Adviser Representatives will monitor client accounts on a regular basis and perform annual reviews with each client. All accounts are reviewed for consistency with client investment strategy, asset allocation, risk tolerance, and performance relative to the appropriate benchmark. More frequent reviews may be triggered by changes in an account holder's personal, tax, or financial status. Geopolitical and macroeconomic specific events may also trigger reviews. You are urged to notify us of any changes in your personal circumstances.

STATEMENTS AND REPORTS

Reports from our Firm are generated for clients on an annual basis or as requested. These reports show the rate of return of accounts under management of Trilogy.

The custodian for the individual client's account will also provide clients with an account statement at least quarterly. You are urged to compare the reports and invoices provided by Trilogy against the account statements you receive directly from your account custodian.

CLIENT REFERRALS & OTHER COMPENSATION

Our Firm does not currently compensate any individual promoters consistent with the requirements of applicable law and regulation, including the Advisers Act as well as applicable state/local laws and regulations.

Trilogy has been engaged as a promoter through agreement(s) with independent registered investment advisers. In such instance, Trilogy acts as a promoter and receives a portion of the fee paid to this unaffiliated advisor. This does not raise the fee paid by the client and the client receives all required disclosure forms disclosing the terms of the promoter relationship at the time the referral is made.

We pay a fee to participate in an online matching program that seeks to match prospective advisory clients with investment advisers. The program, which is operated by third party unaffiliated lead generation firms, provides information about investment advisory firms to persons who have expressed an interest in such firms. The program also provides the name and contact information of such persons to the advisory firms as potential leads. The fee we pay for being provided with potential leads varies based on certain factors, including the size of the person's portfolio, and the fee is payable regardless of whether the prospect becomes our advisory client.

Benefits of Using LPL as Custodian

Our Firm receives support services and/or products from LPL Financial, many of which assist our Firm to better monitor and service program accounts maintained at LPL Financial; however, some of the services and products benefit Trilogy Capital and not client accounts. These support services and/or products may be received without cost, at a discount, and/or at a negotiated rate, and may include the following:

- investment-related research
- pricing information and market data
- software and other technology that provide access to client account data
- compliance and/or practice management-related publications
- attendance at conferences, meetings, and other educational and/or social events
- other products and services used by Trilogy Capital in furtherance of its investment advisory business operations

These support services are provided to our Firm based on the overall relationship between Trilogy Capital and LPL Financial. It is not the result of soft dollar arrangements or any other express arrangements with LPL Financial that involves the execution of client transactions as a condition to the receipt of services. We will continue to receive the services regardless of the volume of client

transactions executed with LPL Financial. Clients do not pay more for services as a result of this arrangement. There is no corresponding commitment made by Trilogy Capital to LPL or any other entity to invest any specific amount or percentage of client assets in any specific securities as a result of the arrangement. However, because Advisor receives these benefits from LPL Financial, there is a potential conflict of interest. The receipt of these products and services presents a financial incentive for Advisor to recommend that its clients use LPL Financials' custodial platform rather than another custodian's platform.

Benefits provided by Charles Schwab

As disclosed under Brokerage Practices, we participate in Charles Schwab's institutional customer program, and we may recommend Charles Schwab to you for custody and brokerage services. There is no direct link between our participation in the program and the investment advice we give to our clients, although we receive economic benefits through our participation in the program that are typically not available to any other independent Investment Advisors participating in the program. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving Advisor participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; research, technology, and practice management products or services provided to us by third-party vendors. Some of the products and services made available by Charles Schwab through the program may benefit us but may not benefit your account. These products or services may assist us in managing and administering your account, including accounts not maintained at Charles Schwab. Other services made available by Charles Schwab are intended to help us manage and further develop our business enterprise. The benefits received by Trilogy or our personnel through participation in the program do not depend on the amount of brokerage transactions directed to Charles Schwab. As part of our fiduciary duties to clients, we endeavor at all times to put the interests of our clients first. You should be aware, however, that the receipt of economic benefits by Trilogy or our related persons in and of itself creates a potential conflict of interest and may indirectly influence our choice of Charles Schwab for custody and brokerage services.

From time to time, we may receive expense reimbursement for travel and/or marketing expenses from distributors of investment and/or insurance products. Travel expense reimbursements are typically a result of attendance at due diligence and/or investment training events hosted by product sponsors. Marketing-expense reimbursements are typically the result of informal expense sharing arrangements in which product sponsors may underwrite costs incurred for marketing such as advertising, publishing and seminar expenses. Although receipt of these travel and marketing expense reimbursements are not predicated upon specific sales quotas, the product sponsor reimbursements are typically made by those sponsors for whom sales have been made or it is anticipated sales will be made.

Other Compensation Arrangements

Trilogy's IARs may be incentivized to join and remain affiliated with Trilogy and to recommend that clients establish accounts with Trilogy through the provision of benefits discussed in Item 10. Trilogy Capital provides these additional benefits to its IARs including but not limited to repayable and forgivable loans. The receipt of any such compensation creates a financial incentive for your representative to stay employed at Trilogy.

CUSTODY

Custody, as it applies to investment advisors, has been defined by regulators as having access or control over client funds and/or securities. In other words, custody is not limited to physically holding

client funds and securities. If an investment advisor has the ability to access or control client funds or securities, the investment advisor is deemed to have custody and must ensure proper procedures are implemented.

While our firm does not maintain physical custody of client assets (which are maintained by a qualified custodian, as discussed above), we are deemed to have custody of certain client assets if given the authority to withdraw assets from client accounts, as further described below under “Standing Instructions”. All our clients receive account statements directly from their qualified custodian(s) at least quarterly upon opening of an account. We urge our clients to carefully review these statements. Additionally, if our firm decides to send its own account statements to clients, such statements will include a legend that recommends the client compare the account statements received from the qualified custodian with those received from our firm. Clients are encouraged to raise any questions with us about the custody, safety or security of their assets and our custodial recommendations.

The SEC issued a no-action letter (“Letter”) with respect to the Rule 206(4)-2 (“Custody Rule”) under the Investment Advisers Act of 1940 (“Advisers Act”). The letter provided guidance on the Custody Rule as well as clarified that an adviser who has the power to disburse client funds to a third party under a standing letter of instruction (“SLOA”) is deemed to have custody. As such, our Firm has adopted the following safeguards in conjunction with our custodians:

- The client provides an instruction to the qualified custodian, in writing, that includes the client’s signature, the third party’s name, and either the third party’s address or the third party’s account number at a custodian to which the transfer should be directed.
- The client authorizes the investment adviser, in writing, either on the qualified custodian’s form or separately, to direct transfers to the third party either on a specified schedule or from time to time.
- The client’s qualified custodian performs appropriate verification of the instruction, such as a signature review or other method to verify the client’s authorization and provides a transfer of funds notice to the client promptly after each transfer.
- The client has the ability to terminate or change the instruction to the client’s qualified custodian.
- The investment adviser has no authority or ability to designate or change the identity of the third party, the address, or any other information about the third party contained in the client’s instruction.
- The investment adviser maintains records showing that the third party is not a related party of the investment adviser or located at the same address as the investment adviser.
- The client’s qualified custodian sends the client, in writing, an initial notice confirming the instruction and an annual notice reconfirming the instruction.

Trilogy is deemed to have custody of client funds and securities whenever Trilogy is given the authority to have fees deducted directly from client accounts. However, this is the only form of custody Trilogy will ever maintain. It should be noted that authorization to trade in client accounts is not deemed by regulators to be custody.

Account statements are delivered directly from the qualified custodian to each client, or the client’s independent representative, at least quarterly. You should carefully review those statements and are urged to compare the statements against reports received from Trilogy. When you have questions about your account statements, you should contact Trilogy or the qualified custodian preparing the statement.

SOFT DOLLARS

Our Firm does not accept any direct soft dollars.

DIRECTED BROKERAGE

Neither we nor any of our Firm’s related persons have discretionary authority in making the determination of the brokers with whom orders for the purchase or sale of securities are placed for execution, and the commission rates at which such securities transactions are effected. We do not routinely recommend, request or require that you direct us to execute transaction through a specified

broker dealer. Additionally, we typically do not permit you to direct brokerage. We place trades for your account subject to our duty to seek best execution and other fiduciary duties.

FINANCIAL INFORMATION

We do not require or solicit prepayment of more than \$1200 in fees per client, six months or more in advance. Therefore, we are not required to include a balance sheet for our most recent fiscal year. We are not subject to a financial condition that is reasonably likely to impair our ability to meet contractual commitments to clients. Finally, we have not been the subject of a bankruptcy petition at any time.

PRIVACY POLICY

Our Firm collects nonpublic personal information about Clients from information provided on applications or other forms, as well as from information regarding Client transactions with our Firm, our affiliates, or others. In accordance with Regulation S-P, our Firm does not disclose any nonpublic personal information about current or former Clients to third parties, except as permitted or required by law, or as necessary to service Client accounts. Access to Client information is restricted to Firm personnel who require such information to provide investment advisory services. Our Firm maintains physical, electronic, and procedural safeguards designed to protect Client information in compliance with federal standards and Regulation S-P. Our Firm provides a copy of its Privacy Policy to Clients at the time of account opening, upon request, and annually if the Policy is amended.
